

Satan's Screeds

by Earl P. Holt III

Recently, I was researching an article about American Jews who spied for the USSR during World War II. One of the decoded (or "*de-crypted*") **VENONA** transcripts sent by their Soviet masters recommended that if any American spying for the USSR was exposed by investigators, **the appropriate response would be to attack the investigators from every conceivable angle, and with as many resources as possible.**

I was reminded of this tactic as new evidence continued to surface surrounding the conspiracy to destroy Donald Trump by treasonous Obama holdovers: It's hard to ignore the fact that the identical tactic was used by the Jews' Media to discredit Donald Trump and assist in the cabal against him. **Like their espionage activities during World War II, this "*media smear strategy*" was conducted almost exclusively by leftist Jews.**

In each instance Jewish slanderers and their Jews' Media organs parroted outrageous and unverified allegations that have since been proven to be entirely fabricated by Russian intelligence agencies, or a product of Hillary Clinton or Debbie Wasserman-Schultz at the ***Democrat National Committee.***

The role of the Jews' Media was to create the illusion of "*confirming*" the contents of the fraudulent "*Steele Dossier*" by repeating its lies, and making such "*validations*" appear to have originated from third-person sources. Its most salacious content -- that President Trump paid Russian prostitutes to urinate on a bed in which the Obamas had slept -- turns out to have its origins in an off-color joke told over drinks at a bar.

Dubious origins like that did not deter these Jewish traitors and professional liars from publishing their vile and libelous falsehoods. Who are these pathological liars and masters of smear and deceit?

Jeffery Goldberg filed a particularly vile and dishonest article in ***The Atlantic*** on July 21, 2016 peddling the fraudulent theory that Russia preferred Donald Trump to Hillary Clinton as president. Goldberg's piece was titled, "*It's Official: Hillary Clinton Running Against Vladimir Putin.*" His effort was pure disinformation and defied reason.

We now have evidence that Hillary was much preferred by the Russians, to whom she had earlier shown great favor by selling them 20% of our precious Uranium reserves. This she did in return for hundreds of millions of dollars in contributions to the ***Clinton Family Crime Foundation*** while serving as *Secretary of State*. This "*Uranium One*" deal demonstrated to Russia she was not only bribable, but also vulnerable to their extortion by virtue of her spurious business dealings with them.

Michael Issikoff of ***Yahoo! News*** was the first to advance the "*Trump Collusion*" narrative on September 23, 2016, using false accusations of a "Russian connection" made against Trump advisor Carter Page in the fraudulent "*Steele Dossier.*" His source was Jonathan Winer, a ***State Department*** bagman of Hillary Clinton, and his resulting article was an obvious "*October Surprise*" intended to influence the Presidential Election six weeks off.

Issikoff has since scrambled to repudiate his earlier false narrative in a desperate effort to save what remains of his professional reputation. The fake news story he received from Winer came courtesy of Steele, a widely discredited Trump-hater, who aggressively tried to shop his false narrative about Donald Trump to anyone in Washington who would listen.

David Corn of ***Mother Jones*** was the first so-called "journalist" to acknowledge the existence of the *Steele Dossier* on October 31, 2016. Rather than being legitimately "sourced" with third-party verification, the *Steele Dossier* was leaked to Corn by Christopher Steele, just as it had been to Michael Issikoff.

Corn disseminated "fake news" by reporting that the *Steele Dossier* was originally financed by an unnamed Republican. This was an outright lie: The *Steele Dossier* was funded by Hillary Clinton and the ***Democrat National Committee*** with approximately \$15 Million laundered through the ***Perkins-Coei Law Firm*** in Washington, and paid to a "Democrat" opposition research firm named ***Fusion GPS***.

It took two scheming Jews at ***BuzzFeed*** to thoroughly libel President Trump on January 10, 2017: They were Miriam Elder and Mark Schoofs. The two used the contrived briefing President Trump received from FBI Director James Comey -- about the dossier's salacious contents -- to provide the "hook" or excuse they needed to publish the complete *Steele Dossier* in their far-left publication.

While Elder and Schoofs had the decency to acknowledge the dossier was not verified, it allowed for the possibility that verification might be forthcoming and created a rationale for the rest of the Jews' Media to run with the allegations and disseminate them to the maximum extent possible. This is one reason why a significant majority of the low-grade morons who call themselves "*Democrats*" still believe President Trump conspired with Russia to steal the 2016 Election.

David Ignatius of the ***Washington Post*** was the first reporter to publish the fact that General Michael T. Flynn -- Trump's incoming ***Director of National Intelligence*** -- made a phone call on December 22nd, 2016 to the Russian Ambassador, Sergey Kislyak. He somehow managed to treat it as a great scandal when it was published on January 12, 2017.

Ignatius did much better reporting at the ***Wall Street Journal***, before he was infected by "*Trump Derangement Syndrome*" through his tenure at the ***Washington Post***, where all truths go to die.

Conveniently ignored by the author and the outright liars who staff his paper was the fact that this "*courtesy call*" by General Flynn was routine, and one of the professional obligations of any NSA Director. We now know that this contrived story provided a phony "*predicate*" for dirty cops at the FBI to frame General Flynn in order to target and spy on President Trump through Flynn, his incoming *National Security Advisor*.

Many other Jewish purveyors of "*fake news*" joined in the cabal, and through it all, the Jews' Media were willing accomplices to those who participated in this treasonous coup against Donald Trump. The echo-chamber their "*fake news*" helped create was designed to cultivate the illusion of "*validating*" or "*confirming*" the allegations of the *Steele Dossier*. Their participation consisted of repetitions of the same lies found in the *Steele Dossier*, but reported as if they originated from different sourcing.

Many of their efforts were later cited by dirty cops at the FBI and Justice Department to obtain ***Foreign Intelligence Surveillance Act*** (FISA) Warrants to spy on everyone associated with President Trump. They were also used to damage the reputations of Donald Trump and all those associated with him during the late stages of the 2016 Presidential Campaign.

The result was a Constitutional crisis and three-year nightmare of false charges against an innocent president, as the Jews' Media -- the focus of Marxism in the West -- and their political operatives in the *Democrat* Party attempted to carry out a coup against Donald Trump, the duly-elected President of the United States.

Every one of them must pay dearly for their treason and libel, both criminally and civilly.
