

Suicide by "*Feminism*"

An earlier article mentioned the fate of Jennifer Schlecht, a Jewish New Yorker, feminist and social-worker who married a Muslim *schvartze* from Ethiopia. He later murdered their daughter and decapitated Schlecht when she served him with divorce papers in November of 2019.

Sadly, this foolish woman learned far too late about the violent and predatory nature of n*ggers to save her own life or that of her daughter.

Yet, I couldn't help noticing the victim's surname was an Ashkenazy-Jewish name whose German translation means "*poor judgement.*" What could have possessed a liberal and Jewish feminist to marry a *schvartze* Muslim and bear his child? There may be several answers to this question.

First of all, her particular generation is renowned for what is often referred to as "**virtue signaling**." That's where one engages in overt behaviors primarily for the approval that such behaviors predictably generate from others of their ilk.

Essentially, she was telegraphing the fact that as a liberal, Jewish feminist, she was so "**open-minded**" that she was even willing to marry a *schvartze* and Muslim to demonstrate her virtue. Doubtless she received endless approval from the kinds of idiots who elected Bill de Blasio Mayor.

However, there may be an even more sinister motive that prompted her to marry the Muslim *schvartze* who murdered both herself and their daughter.

For decades, the **Ladies' Auxiliary of Marxism** has railed against patriarchy and white males in general. They have also coined such clever expressions as "**testosterone poisoning**" to explain how males have prevented the world from becoming one big utopia, where everyone holds hands and sings "**Kumbaya**" together.

I have noticed a strong inclination among white feminists to engage in miscegenation, a practice which they seem to naively believe will eventually "**breed away**" America's race problems, and help create that brown *hybrid* about which Jewish communists are so enthusiastic and supportive.

Being the children they are and will always be, these foolish and indoctrinated feminists often choose blacks as mates. Ironically, these are the very males that most egregiously exhibit the kinds of behaviors and attitudes that feminists purport to despise and reject!

Simply put, there is no demographic on Earth as controlling and as "*poisoned*" by testosterone as black males. That's one reason why they often kill each other (and we humans) over nothing, and why they lead the world in every category of violent crime, anywhere and everywhere they are found. There's even a strong enhancement of their aggressive and controlling nature if they also happen to be Muslim.

Feminists who are foolish and witless enough to marry or date black males seem oblivious to the fact that they have selected the very *epitome* of the violent, controlling and patriarchal male that their feminist ideology purports to denounce and reject. As noted, Muslim males are even worse!

It shows how clueless, confused and hopelessly indoctrinated they truly are, which is why so many end up paying with their lives for their ideological foolishness.
