

A Time for Blunt Truth

by Earl P. Holt III

When black savages rioted in Harlem back in 1964, a *New York Times* Editorial Page Editor named Anthony Lewis offered the usual alibis and excuse-mongering routinely found among Jewish leftists. He wrote "***They are rioting because they are hungry.***" To his eternal credit, William F. Buckley replied: "***They must have been thirsty, too, because they hit the liquor stores first.***"

It should be obvious to anyone with a three-digit IQ that blacks have always been willing to use any pretense to steal or destroy property they happen to covet. They find hurricanes and tornadoes to be just as useful as "*cop-killings*" when they feel such an urge. It's what they do and it's in their genes, kind of like dunking a basketball, driving without a license, or running from the PO-lice.

Those who are quick to condemn the Minneapolis police officers in whose custody George Floyd died, should take a gander at the violent and savage nature of the rioters they see each night on TV: They will recognize that this is the cesspool sludge those police officers must deal with every day of their lives. It's a wonder they do so well.

It is likely that most of the destructive black savages who rioted and burned parts of Minneapolis had never heard of George Floyd, whose death provided the pretense for their violence and thievery. All those white communists and Antifa organizers knew about Floyd, but not the functionally-illiterate, black street-n*ggers committing most of the violence: They weren't protesting the death of George Floyd, they were seizing an opportunity to "*hit a lick*," as it's so artfully put it in the hood.

Next time there is a Mayoral Election in Minneapolis or an election for Governor in Minnesota, whites should remember the impotence of the city's mayor and the state's governor, exposed for all the world to see. Contrast the many draconian executive orders during the COVID-19 epidemic -- capriciously imposed on law-abiding citizens -- with the timidity and cowardice these leaders showed by allowing the rioters and arsonists to burn, steal and riot with impunity.

Those who assume that our largest cities can be taken back from such violent, lawless and retarded black garbage -- and returned to the kind of law-abiding and efficient places they were before the 1960s -- are deluding themselves. This would be the demographic equivalent of "*putting the toothpaste back in the tube.*"

Our large cities are hopelessly lost to this "*black plague,*" which is as disinterested in law and order as it is in sexual abstinence. Those who think that whites can successfully reclaim the loss of our large, urban areas ought to familiarize themselves with the story of *Sisyphus*.

The relocation of the Holy Roman Empire to Istanbul should be the inspiration for every white American citizen to get as far away from our large, inner-cities as geography and resources permit. Leave those areas to the nigs, who will be stacked along the highways like chord-wood without whites to feed, clothe, educate, house and give them "free stuff." White race-traitors who remain behind will get what they deserve, and probably end up in the pot.

Blacks will kill each other until their numbers are manageable. In the meantime, we whites can reclaim our civilization and live in a decent environment like we did until the insanity of 1960s, when so-called civil rights "*reformers*" turned *Africanus criminalis* loose upon innocent and law-abiding people to the eternal detriment of white, Christian America.
