

Gracie's Pariah

(To "My Favorite Things" from *The Sound of Music*)

De-funding **PO**lice while emptying prisons
Belittling those with different opinions;
Outlawing worship not riots or crime
It's clear to New Yorkers their mayor is slime.

Aborting the innocent gets a green light
Yet, places of worship are boarded-up tight;
Most restaurants and bars have all gone bankrupt
Meanwhile New York City just grows more corrupt.

The mayor has clearly dragged down the whole state
It's close to insolvent, its impending fate;
Trillions in unfunded debts lie ahead
de Blasio figures by then he'll be dead.

Blaming China's virus on President Trump
Is the thanks that Trump gets for helping this "*hump*":
Despite sending all supplies that he could
Just proves that de Blasio's no *friggin'* good.
