

American "*Samizdat*"

by Earl P. Holt III

Objective truth is a very expensive commodity in this dishonest age. That's because there's nothing that leftists in this country fear more than the truth, which is why our mortal enemies spend so much time and effort trying to stifle it and "*de-platform*" all conservative or white nationalist messages and messengers.

The Corrupt Leftist Media routinely attempt to persuade us to accept their fake news narratives and ignore our "*lying eyes*." Marxists in the form of communists, "*progressives*," socialists, liberals and fascist -- like ***Antifa*** -- do everything in their power to stifle and censor our efforts to tell the world important but painful truths.

In this regard, the conservative movement can be said to carry on the tradition of "*samizdat*," those illegal and underground publications that thrived within the Soviet Union and other Eastern Bloc nations during the Cold War. (Its literal Russian translation means "*self-published*.") In the USSR, *Samizdat* evaded government censorship while exposing the official lies of *TASS*, *PRAVDA* and other state-run media organs on a regular basis.

The cesspool referred to as "*Social Media*" may be the worst offender in trying to censor and stifle our message. Conservative and other white nationalist groups like the CofCC are routinely de-platformed by them, often for demonstrably innocuous comments and ALWAYS for telling a powerful truth. Apparently, ***Facebook*** can de-platform the *President of the United States*, so censoring white nationalist groups has proved easy.

Several times, the CofCC has been cancelled by "*website hosts*" and on-line "*payment gateways*" at the insistence of a variety of lying commie groups. **Pay-Pal** was one of the first, which is why CofCC Members can no longer renew their Memberships with a credit card. (Always remember to avoid using **Pay-Pal** whenever buying something on-line.) Each time we lost our website host, we had to scramble to find another.

For years, the CofCC has been plagued by the dishonesty of "*Africanus misdeliverus*" at the **Postal Service**, who frequently discard or damage issues of the **CITIZENS INFORMER**. Also, when one Member in Florida tried to send me a box of books -- which I never received -- he was later told by the **Postal Service** that his books were somehow "*lost*." Our recent conversion to an exclusively *Electronic Edition* of the **INFORMER** will end-run the baboons at the Post Office.

The violation of our Constitutional Rights of Free Speech and Peaceable Assembly by nigras and communists did not begin at Charlottesville in 2018: Our local St. Louis CofCC Annual Picnic was attacked with hockey sticks by **Code Pink**, **Antifa**, and a bunch of witless and pansy college students in 2006. (We gave them the beating of their lives.) Since then, we've become better at obscuring our activities, just as most other conservative and white nationalist groups have learned to do. We have also armed ourselves.

Our Marxist enemies live in an ideological echo-chamber where they parrot the same slogans and falsehoods they've pressed into service for 70 years. As a result, they haven't had a new idea for at least the last 30, and they have allowed history and current events to pass them by and make them ideologically obsolete.

Just as state censorship did for Eastern Bloc "*dissidents*," the obstacles placed in our way have actually made us more resilient, smarter and

more determined. In that sense, we are much like the publishers and readers of *samizdat* during the *Cold War* by carrying on its noble traditions.
