

## Manchurian Candidates

For years, Representative Eric Swalwell (D-Beijing,) told every news media organ and anyone who would listen that President Trump was an "asset" of Russia, **EVEN THOUGH SWALWELL KNEW IT WAS A LIE.**

He knew he was lying because dozens of former Obama intelligence officials admitted under oath in secret (SCIF) testimony before the *House Intelligence Committee* that no such evidence involving Donald Trump existed. Of course, the "*Democrats*" who controlled the *Intelligence Committee* after 2018 refused to release transcripts of their testimonies, which enabled "*Democrats*" to continue their ceaseless lying.

**At the very same time Swalwell was relentlessly lying about Trump being "*compromised*" by Russia, Swalwell himself was sleeping with a Chinese intelligence agent named "*Christine*" Fang. Moreover, his House campaigns were being financed with illegal contributions from the *Chinese Communist Party's* spy apparatus using "*dark*" money.**

The "*Democrat Leadership*" -- whatever that might mean -- was briefed on this scandal back in 2018, while Republicans were given no such briefing. Moreover, although House Speaker Nancy Pelosi was briefed by intelligence officials, she ***STILL*** assigned the thoroughly-compromised Swalwell to the *House Intelligence Committee*, where he had unparalleled access to "*Top Secret*" and other Classified information.

Recently, Pelosi has *doubled down*" on her own horrifically corrupt tactics by assigning Swalwell to chair an entirely new House committee in the next Congress having CIA oversight. This puts Swalwell in good company with a great many other "*Democrats*," all of whom have been thoroughly compromised by virtue of their relationships and business dealings with Communist China.

For example, Joe Biden is a wholly-owned asset of Communist China and its ubiquitous intelligence services. He's received millions of dollars in illegal bribe money from China through his idiot son Hunter, who has sold access to Biden all over the globe and then split the proceeds with dad. This makes Biden **EXTREMELY VULNERABLE** to extortion by Communist China.

Likewise, Senator Diane Feinstein (D-Shanghai,) cluelessly and obviously hired a Chinese Communist spy as her office manager and driver for 20 years. Her husband is also a big investor in Chinese business enterprises, with millions of dollars worth of business investments in communist China.

House Speaker Nancy Pelosi's (D-Wuhan,) Jewish husband is also heavily invested in communist China, which may well explain why she is so reluctant to recognize China as a threat to the U.S., and why "*Democrats*" in the House are so enamored and trusting of China. They see Republicans as a far greater threat.

More recently, Joe Biden is rumored to favor Bob Eiger of ***Disney*** as his Ambassador to China. Eiger is a whore for China, so China already effectively owns the souls of both Eiger and ***Disney***. This nomination probably seemed like a good fit to Biden in his current state of diminished mental capacity.

**Biden might as well make Chinese Dictator Xi Jinping a member of his Cabinet. Those who do not understand that the "*Democrat*" Party is really the *New Communist Party* of the United States just aren't paying attention.**
