

# Ted Wheeler: Idiot of the Year

by Earl P. Holt III

It would be easy to conclude that Portland Mayor Ted Wheeler is the dumbest son-of-a-bitch in public office. Unfortunately, there's a great deal of competition from far too many "*Democrat*" imbeciles serving as mayors and governors in "*blue*" states and cities.

After rejecting offers of assistance from the Trump Administration to quell the RIOTS that have plagued Portland for seven months, he has now thrown in the towel and asked for federal assistance. He concedes that his efforts to appease the n\*ggers and communists and garbage who have plagued Portland have been an utter failure.

This idiot conceded in a press conference on *New Year's Day* that ***“My good faith efforts at de-escalation have been met with ongoing violence and even scorn from radical Antifa and anarchists. In response it will be necessary to use additional tools and to push the limits of the tools we already have to bring the criminal destruction and violence to an end.”***

Seven months ago, Ted Wheeler demanded that federal law enforcement abandon Portland in an act of witless bravado intended to solidify his support among the communists, n\*ggers, feminists, Antifa-fascists, race-mixers, nudists, vegetarians, drug-addicts and other scum that appear to comprise the vast majority of Portland's residents under the age of 50.

This dumb bastard now calls for a "*task force*" consisting of law enforcement from all levels of government to help clean out the two-legged rats and cockroaches he earlier invited into Portland and to whom he has given sanctuary. He has also called upon Oregon's State Legislature to ***"increase penalties for repeat offenders" of rioting.***

Proving that he's learned absolutely nothing, Wheeler's laughable idea of increased penalties is to require that ***"people convicted of criminal destruction be required to meet with those whose businesses they damaged...and be required to do public service."***

Following Portland's riots on *New Year's Eve*, Wheeler opined that ***"It's hard for most of us to even comprehend what goes on in the heads of people who think it's OK or a good idea to go on a violent rampage through the city on New Year's Eve and during a pandemic...It's the height of selfishness."***

However, those of us in ***"flyover country"*** have no difficulty recognizing what goes on in the heads of Portland's rioters: When violent communists, and other losers are paid to riot, then released without charges and even given sanctuary -- **AND THEN CELEBRATED BY THE JEWS' MEDIA AS 'PEACEFUL DEMONSTRATORS'** -- they have powerful incentives to continue the exercise.

It's a real simple principle, but apparently too complex for idiots and fools and ***"Democrats"*** such as Ted Wheeler.
