

# What Now?

by Earl P. Holt III

In the wake of a stolen Presidential Election with no available remedies from the cowardly and corrupt officials in positions of authority to actually DO something, what should decent and honest Americans do who wish to preserve the vision of the Framers for generations to come?

Some among us will throw up their hands and quit, as if a stolen election justified their doing so. Fraudulent elections based on systemic voter fraud gave them the excuse they've always wanted, even though their past efforts were usually marginal, anyway. (It's almost always those who do the least that complain the most.)

Nobody ever guaranteed us that preserving the U.S. Constitution would be easy and automatic. We should have learned that lesson from the Cold War: Preserving America's Constitutional and Cultural Heritage requires constant effort and vigilance, and a great deal more participation than we've given the task in the past. Simply put, the enemies of freedom never sleep.

**While we bemoan our predicament, we should bear in mind that Washington's Army at Valley Forge was literally starving and freezing during the Winter of 1777; And, for 13 days, 189 volunteers at the Alamo held off an invading Mexican Army that outnumbered them 15 to one; Moreover, in December of 1944, 20 year-old kids were struggling to keep from freezing to death while fighting for their lives against 26 *Panzer* and *Tiger* Tank Divisions at Bastogne, Belgium.**

The answer to the question "what now?" is not to quit or refuse to participate in the electoral process, it is to **RE-DOUBLE OUR EFFORTS**. Many of us give thought to electoral politics for one day every two or

four years, and some don't vote at all. What is needed is greater participation in state and local elections by the 75 million Americans who voted for Donald Trump, to ensure that there can never be a repeat of the 2020 stolen election.

Our immediate goal should be two-fold: **First, the removal of all corrupt "Democrat" office-holders who worked treasonously and tirelessly to subvert their state's election laws immediately prior to the November 3rd election.** Targeting the Governors and Secretaries of State in Pennsylvania and Michigan should be among the very highest priority.

**An additional goal should be removing cowardly Republican "deadwood" found at all levels of elected officialdom.** This would include the hapless Governor and Secretary of State in Georgia, as well as the Secretary of State in Arizona. There are a great many other worthy candidates for removal. **The priority should be to fund and support PRIMARY OPPONENTS of these marginal "Republican" incumbents who betrayed us like Judas betrayed Jesus Christ.**

**We must also provide a greater presence at the polls during elections to prevent the kind of fraud in which "Democrats" routinely engage, especially BLACK "Democrats" found in "blue" cities. This means volunteering to serve as *Republican Election Judges, Republican Election Supervisors* and *Election Observers*. It also means having a legal team standing by, and recruiting off-duty cops as Observers.**

When Republicans don't volunteer to work as election officials, those positions are routinely staffed with black "Democrats" by county election officials. This is particularly true of wards and precincts located in "*Indian Territory*," where whites are often afraid to venture. However, **THAT'S WHERE MOST VOTER FRAUD OCCURS**, and these are the places most desperately in need of honest election officials and observers. There is

no real alternative for curtailing the massive voter fraud that occurs in these places.

Moreover, we must resolve **NEVER** to vote for another Jew for public office, unless that candidate has a long and demonstrable record of conservatism and loyalty to the Republican Party. Pennsylvania's Governor, Attorney General and Secretary of State are all Jewish "*Democrats*," which is why there was so much systemic voter fraud in that state. Doubtless, the three ran for office in anticipation of being in positions to assist in the theft of the November 3rd Election.

Finally, honest and decent citizens of every state must work relentlessly to reform the election laws in their states. This means a Photo I.D. requirement for EVERY voter at every election. It also means outlawing "*bulk mail*" ballots and prohibiting the counting of late ballots.

We must work to remove all vestiges of ***Dominion Voting Systems***, and replace their crooked devices with *stand-alone* devices that do nothing but read, tabulate and store numbered paper ballots without any internet connection. Encourage your state to sue the crooked bastards at ***Dominion Voting Services*** to recover all that "*up-front*" money they received for stealing and prolonging the 2020 Presidential Election, and placing a senile, pathological liar and organized crime figure in the White House.
