

They Can't *Even* Govern

by Earl P. Holt III

If there's one clear lesson from the new millennium, it's the obvious fact that the misnamed "*Democrat*" Party is not the least bit capable of governing. It may win elections through slander and lies and massive vote fraud, but once in office, its elected officials consistently demonstrate they could screw-up the ***Rock of Gibraltar***.

This is because the "*Democrat*" Party must constantly pander to a greedy and moronic constituency of black race-hustlers, commies, homos, swamp creatures, mail-box watchers, surly black public officials, communist Jews, union thugs, feminists and nudists. Simply put, the bizarre and infantile ideologies that frame their politics just won't work in the real world.

For example, when the *ChinaVirus* pandemic hit, San Francisco began housing its homeless population in the city's luxury hotels. The homeless -- or "*un-housed*" as the left prefers -- were provided free rooms, room service, cigarettes, alcohol and even heroin for those "*who wish to continue using*." After spending \$100 Million, city officials were astonished to find growing numbers of filthy vagrants arriving from elsewhere and demanding to know where their hotel room was?

While San Francisco's homeless were luxuriating at the ***Adam's Mark***, Seattle officials were studiously ignoring the violent seizure of six city blocks in its downtown business and government district by ***Black Liars Murder*** and ***Antifa*** communists, who illegally established an "*Occupation Zone*" where police were prohibited. After months of impotent negotiating, Seattle's hapless city officials were finally compelled to act against this "***Capitol Hill Autonomous Zone***" when the

n*ggers began gunning each other down in the middle of the night over drug deals.

The "**blue**" city of Portland is just as timid and poorly run as San Francisco and Seattle, so of course it hosted nightly riots for nine months by the usual suspects. Although city officials insisted on calling them "*peaceful demonstrations*," their levels of violence and arson indicated otherwise. Portland's hapless "*Democrat*" Mayor, Ted Wheeler arrogantly rejected timely offers of federal assistance from President Trump, but was finally forced to relent and ask the Biden Administration for assistance after almost nightly rioting since May 31 of 2020.

Personal Safety: The most restrictive gun laws in America are always found in America's **bluest** cities such as New York, Los Angeles, Chicago, D.C., and San Francisco. After effectively disarming their own residents, many of these city and state officials didn't flinch when releasing some of their most violent and savage criminals from state prisons and county jails at the beginning of the COVID-19 pandemic." This revealed their greater concern for the wellbeing of violent criminals than for law-abiding citizens, who were often harmed by the inevitable increase in violent crime.

Fiscal Insanity: The state pension funds in the **blue** states of New York, California and Illinois are each about one trillion dollars "*underfunded*" because these states have shockingly mismanaged their finances by misappropriating precious tax revenues in order to enrich their political supporters.

As their respective tax bases have fled and sought refuge in better managed states with lower taxes, the response of **blue** state governors and mayors has been to impose yet higher tax rates on those unfortunate or foolish enough to remain. Thumbing their noses at such

simple and basic economic principles is why these **blue** states are in such a mess in the first place.

Shut-downs: "Democrats" in the **blue** states of New Jersey, Michigan, Minnesota and California showed their true allegiances by ordering churches and places of worship to be "*shuttered*," while granting permission for abortion clinics, liquor stores and marijuana shops to remain open. Likewise, small businesses were ordered closed, while "*big box stores*" – whose Boards contribute primarily to **blue** candidates – were also permitted to remain open.

Crime: One of the most despicable betrayals in the last few years was when local law enforcement in **blue** states and cities were ordered by their elected officials to "*stand-down*" while their cities burned and innocent civilians were attacked along with police. This phenomenon was endemic to **blue** cities like Minneapolis, Atlanta, Detroit, Chicago, New York, Los Angeles, Seattle, Portland, St. Louis and many more.

Equally reprehensible, few if any indictments were ever issued against violent criminals by **blue** County Prosecutors. Prominent "*Democrats*" like Commie Harris even helped to establish a fund to bail out those arrested, especially the communists from ***Antifa*** and the thugs from ***Black Bastards Murder***. The party-line uttered by EVERY "*Democrat*" and their Jews' Media allies was to describe violent rioters as "*peaceful demonstrators*."

Many **blue** cities have also begun a move to radically reduce police department budgets or eliminate them altogether, even in the wake of skyrocketing levels of violent crime. This is transpiring in places like New York, San Francisco, Los Angeles, Minneapolis, Seattle and Portland. Some **blue** states – such as Illinois, California, Maryland and New Jersey – have experimented with abolishing cash bail for felony suspects, while other cities such as New York and Philadelphia have

followed suit. This enables murderers, rapists and armed-robbers to continue practicing their crafts while awaiting their trials.

Illegal Aliens: Many states and counties – primarily in **blue** states – offer sanctuary to foreign nationals and thereby create an incentive for many to enter the U.S. illegally. Millions have taken advantage of these havens, including a great many murderers and other violent criminals, who are then shielded from ICE and other immigration authorities by elected officials. The fact that legal citizens frequently become victims of violence at the hands of illegal aliens doesn't appear to concern them, nor has it ever caused them to rethink their "*sanctuary policies*."

School Openings: Most **blue** states have yet to reopen their public school systems. This exposes the fact that they are at the mercy of the teachers' unions, which have acquired vast power in exchange for lavish funding of "*Democrat*" Party candidates through their massive union check-offs. Teachers and administrators in **Blue** cities and states routinely defy city and state officials who are powerless to force them to reopen schools, since the latter are addicted to campaign contributions from teachers' unions.

Blue cities like San Francisco, Seattle, Portland, New York, Minneapolis, and Chicago were once-great cities that have been destroyed by the infantile application of leftist ideologies by state and local government officials. They also provide a glimpse at a very bleak future for freedom-loving Americans if we do not end the illegal and incompetent rule of the corrupt and misnamed "*Democrat*" Party.
