

Little Marco's Folly

Little Marco Rubio (R-FL,) offers an excellent example of how ambitious but unprincipled "*Republicans*" seem endlessly willing to do the dirty work of our mortal enemies on the left. He has re-introduced a Bill in the U.S. Senate to prevent "*suspected terrorists*" from purchasing firearms. It sounds good on its face but, as always, the devil's in the details.

Rubio's Senate Bill is titled the ***Terror Intelligence Improvement Act of 2021***, which Little Marco claims would grant greater discretion to law enforcement to prevent the sale of firearms to those who are "***the subject of a federal terrorism investigation.***" Apparently, Little Marco is blind to the fact that every Trump supporter in the land is considered to be a potential "*domestic terrorist*" by federal law enforcement, thanks to the *New Communist Party of the United States of America* (NCPUSA,) mistakenly referred to as the "*Democrat*" Party.

The corrupt and evil NCPUSA that stole the 2020 Presidential Election considers every Trump supporter, every conservative and every white nationalist in the land to be a potential domestic terrorist and deserving of investigation. If enacted, Little Marco's Senate Bill would render anyone to the right of the ***Lincoln Project*** ineligible to purchase a firearm, which has been the goal of every communist in this country since the Bolshevik Revolution.

The Bill also specifies that federal terrorism investigations would be consolidated under the FBI, thus strengthening the FBI's authority and discretion. That's the same FBI whose ENTIRE LEADERSHIP perjured itself in front of four *FISA Courts* to obtain warrants to spy on Donald Trump before and after Trump's election. It's also the same FBI that refused to take even a glance at the massive voter fraud committed by the NCPUSA during the November, 2020 Presidential Election.

Little Marco's Bill fits the gun-banning strategy of the NCPUSA so perfectly, none other than Senator Shmuck Schumer (D-Stalingrad) gleefully endorsed it with this statement: "***Every senator is now going to have to say whether they're FOR terrorists getting guns or AGAINST terrorists getting guns.***"

Since Jewish agents of disinformation can successfully mischaracterize Little Marco's Bill with such a fraudulent dichotomy, most Republicans will wet themselves, then throw up their hands and run for the tall grass like they've always done on tough votes.

That's why Little Marco's Senate Bill is a gift to the communists and other NCPUSA scum, who know they must disarm us before subjugating us.
