

Biden's War against the Middle Class

by Earl P. Holt III

It should now be obvious that the true purpose behind prolonged quarantines or "*lockdowns*" of small businesses in New York, California, New Jersey, Michigan and other deeply "*blue*" states is part of a broader strategy to wage war against middle class entrepreneurs who own or built those businesses.

Biden and his "*Democrat*" allies who control *blue* cities and states recognize that small business owners constitute their **GREATEST POLITICAL OPPOSITION**, since the latter tend to be conservative, libertarian, independently-minded, or at least vote Republican.

By using the pretense of the Wuhan Virus, "*Democrat*" politicians knowingly *shuttered* millions of businesses and sabotaged the ability of their political opposition to earn a livelihood by bankrupting the businesses they've spent their adult lives building. This is reminiscent of the way Stalin starved to death 10 million Ukrainian "*Kulaks*" in 1932 and 1933 by forcibly confiscating their entire agricultural output.

By destroying small businesses, "*Democrats*" seek to impose a new socialist agenda on America, where the middle-class is decimated and the resulting poor are entirely dependent upon scraps from "*Democrat*" officials. Meanwhile, its political allies -- such as the plutocrats of *social media* -- are granted political favors and protection in exchange for censoring conservative opposition and contributing billions in "*dark*" and "*bundled*" campaign contributions to the "*Democrat*" Party.

This is one reason why police in *blue* cities were told to stand down while rioters looted and burned small businesses to the ground. It is also why no rioters were ever charged with a felony for "*torching*" or looting someone's business. In fact, many prominent "*Democrat*" officials -- including *Commie* Harris -- established a **FUND TO POST BAIL** for those charged with violent felonies in many large cities.

That small businesses were capriciously singled out became evident when "*big box*" stores like ***Walmart, Target, Home Depot*** and ***Lowe's*** were allowed to remain open despite the pandemic. Because of their enormous patronage, large retailers are probably LESS SAFE than small businesses in transmitting the China Virus, but they are more easily intimidated by political authorities exercising dubious "*Executive Orders*."

Since the November Election, things have only gotten worse: The so-called "*Democrat*" Party -- more accurately referred to as the *New Communist Party of the United States (NCPUS)* -- wasted no time declaring war on the oil industry. The Biden Administration has cancelled the *Keystone XL Pipeline*, prohibited oil drilling on public lands, and it has vowed to end "*fracking*" in an effort to destroy the oil services industry.

In addition to dis-employing hundreds of thousands of well-paid, blue-collar jobs, these policies will dramatically raise the cost of ALL

petroleum products, including gasoline, diesel fuel, home heating oil and petrochemicals. The Biden Administration plans a similar war on coal. After four years of energy independence, this will make America reliant once again upon imported oil from unstable the Middle East.

Supplementing his many attacks on the middle-class, Biden has also vowed to raise *Federal Income Tax* rates and to eliminate the *Capital Gains Tax* so as to tax these profits as income. Raising income taxes will reduce the disposable income of the middle-class, while raising the tax on Capital Gains will diminish the value of their investments and savings, whether held in the form of a 401-K or an employee pension fund.

Meanwhile, Biden and his NCPUSA plan to open the borders and invite the entire Third World to enter and avail themselves of free health care. This is one reason why taxes are going up. The NCPUSA is seemingly oblivious to how this will drive down wages for low-skilled individuals who must compete with legions of lower-skilled and poorly educated Third World immigrants, most of whom will be incapable of assimilating.

Finally, just as they have done for more than two decades, the NCPUSA plans to raise *Corporate Income Tax* rates, along with all other taxes. After finally seeing manufacturing jobs return to the U.S. under President Trump -- after eight years of fleeing America during the Obama/Biden Administration -- Biden's commissars will once again drive those manufacturing concerns back to China and other foreign destinations to escape high U.S. Corporate Income Tax rates.

In its efforts to implement the socialist agenda of its party, the Biden Administration must first effectively destroy America's middle-class, the source of most of its political opposition. Like the *Holodomor* in the Ukraine -- which translates as "*death by famine*" -- little consideration

will be given to those in the "*Bourgeoisie*" whose lives inevitably become casualties of the *New Communist Party of the United States*.
