

Pelosi Blames Trump for Border Crisis !

by Earl P. Holt III

If there were any doubt that lying would become the basic strategy of governing by the *New Communist Party of the United States of America* (New-CPUSA,) one need only take a gander at House Speaker Nancy Pelosi's assessment of the causes of the current border crisis.

She claims it's all Trump's fault. On March 14th, she told the ***Ashkenazy Broadcasting Corporation's "This Week"*** that "***...the Biden Administration has inherited a broken system at the border, and they are working to correct that in the children's interest.***" The person she claims is responsible for the *broken system* is of course, Donald Trump.

In excess of 29,000 "unaccompanied minors" crossed the border in February according to US Customs and Border Protection. This one-month total nearly equals that for all of 2020. Meanwhile, the number of illegals apprehended in February at the border totaled 100,000, a 28% increase over January. This human trafficking is making the drug cartels very wealthy.

Being the pathological liar she clearly is, Pelosi refuses to acknowledge that Biden has created a "*border crisis*" of unprecedented dimension and urgency by abandoning Trump's "***Remain in Mexico***" policy. Instead, she's chosen to employ a euphemism to describe it as a "*humanitarian challenge*." That's a *border crisis* by any other name.

Fortunately, a few courageous Republicans like Sen. Bill Cassidy (R-LA,) correctly blame the Biden Administration for both "***the increase in migrants and the number of apprehensions,***" recognizing that Biden's

immigration policies have literally invited migrants to make the dangerous journey to the U.S.

The tsunami of migrants arriving at the border has overwhelmed U.S. immigration authorities to such an extent that Biden recently authorized FEMA to *“help receive, shelter and transport the children”* over the next 90 days. **This was nothing more than a sleight-of-hand to appear as if something were being done to mitigate the crisis, while illegal children are being distributed throughout the U.S. where they can't be traced.**

In the *Wonderland* inhabited by communist liars in the Jews' Media, the Biden Administration somehow deserves credit for the ChinaVirus vaccine that was funded and began distribution before Biden even took office, but Trump is somehow responsible for a NEW border crisis that didn't even exist at the time he left office.

We are more likely to see Jimmy Hoffa return as Teamster President than witness the communists and liars in the Jews' Media tell the truth about anything in the next four years.
