

June Black Crime Roundup

by Earl P. Holt III

The Jews' Media have a real hatred for anyone who dares to report incidents of black-on-white murder. These incidents are routinely “spiked” by the Jews' Media because interracial murders only serve their purpose when the victim is black and the perpetrator is white.

Their standard narrative is one in which innocent black victims are under siege by violent white assailants, and those who disprove this false narrative become the target of their wrath and fury. The latter are then accused of spreading what the ***Southern Prevarication Lie Center*** (SPLC,) calls “*a false narrative of a victimized white majority under siege by allegedly violent people of color in the United States.*”

Below is a sampling of violent black-on-white murders that give *Africanus criminalis* its well-deserved reputation, one that the Jews' Media has been unable to successfully “spike” because of the evolution of a conservative and alternative news media like the ***CITIZENS INFORMER***.

Frank Wade: On February 20th of this year, this 29 year-old white male was bowling in the Pennsylvania township of East Norton when he was murdered by a sub-human rat-ape named **Jamel Barnwell**. Four other innocent victims were also injured by Barnwell, who fired into the crowd.

Barnwell and two accomplices traveled to East Norton from West Philadelphia with malice aforethought and for the sole purpose of killing white people. Naturally, the Jews' Media has “spiked” this story, just as they always do. Fortunately, all three niggers were stupid enough to leave their cell phones at the bowling alley, which led to the identification of Barnwell.

Jessica Weishaar was a 43 year-old white woman and bank employee, who was murdered during a bank robbery in Lu Verne, Iowa in December of 2019. Her murderer was a black bastard with more felonies than IQ points, who spent half his life in "*government housing*." The victim is survived by her loving husband.

Jordan Taylor was a white man and popular basketball coach at a local YMCA in Baltimore, who was murdered in his home by three rat-monkeys who shot him multiple times during a home invasion and burglary.

Christopher Dean: This 33 year-old white male was beaten to death in Atlanta, Georgia by five subhuman rat-apes belonging to the black *Gangster-Disciples*. The five beat him to death with a two-by-four and a crowbar for more than an hour after learning that Dean had once been a police witness in California.

Bob Long was a 74 year-old white man and a prolific author of books on chess, who was strangled to death in January of 2020 during a robbery of his home in Davenport, Iowa. He was murdered by a 19 year-old rat-monkey with previous arrests for assault, theft and robbery.

Mark Schlemmer was a 37 year-old white man and Illinois resident who was gunned-down on the mean streets of St. Louis by a rat-ape in the early morning hours following Halloween Night, 2019. His murderer was the usual n*gger with a long arrest record, an obligatory firearm and under-evolved frontal lobes.

Matthew Carter was a 17 year-old high school athlete in Lafayette, Louisiana who was shot and killed during an armed robbery attempt by two teenage rat-apes in January of 2020. His murderers were ages 13 and 14. Matthew Carter had a promising life ahead of him, whereas

one of the nigs who murdered him is on his way to the Big House and the other to the juvenile justice system.

Sean Schellenger was a 37 year-old white man and Philadelphia real estate developer who was stabbed to death by a 20 year-old black baboon in July of 2018. The murder victim had been a "walk-on" QB for Penn State's football team. The murderer was acquitted by the usual jury of retarded, black mailbox-watchers.

Angela Summers: This 45 year-old white woman was an Indianapolis mail-carrier who was murdered in April of 2020 by a savage nigger baboon on her mail route. Mail delivery to the baboon's home had been stopped after three prior warnings because of his vicious dog. This incensed the baboon so much that he murdered this innocent woman and mother who was merely doing her job. In this case, it can be said that the n*gger was just as vicious and stupid as his dog.

Heather Perry: This 21 year-old white woman was murdered by one of the savage n*ggers who were paroled by Colorado's idiot, "Democrat" governor, Jared Polis during the *ChinaVirus* pandemic. Polis had requested the *Colorado State Board of Parole* expedite probation and parole of inmates in order to protect them against the COVID-19 outbreak. Sadly, he was not at all interested in protecting his law abiding citizens.

The murderer's criminal history extended back more than a decade. It should be patently clear that blue state governors have been far more concerned during the pandemic about the wellbeing of violent, black criminals than about the wellbeing of law-abiding white citizens.
