

Springing Savages

by Earl P. Holt III

Candidate Michael Dukakis probably lost the 1988 Presidential Election because as Governor of Massachusetts, he had given early release to a n*gger murderer named Willie Horton who went on to commit at least one additional murder after his release. In a more honest and sober age, the release of savage n*gger murderers by public officials was correctly recognized as a betrayal of the public trust.

However, during the *ChinaVirus* pandemic, a number of clueless and incompetent public officials granted early release from prison to dangerous and murderous savages, despite their demonstrable risk to public safety. Many of these early parolees and probationers demonstrated their gratitude and the extent of their "*rehabilitation*" by murdering innocent citizens.

Joseph Williams: In March of 2020, this sub-human example of cesspool sludge was released from the **Hillsborough County** jail in Tampa, Florida over concern about the *ChinaVirus*. **ONE DAY LATER**, he committed murder by shooting to death a man in Tampa Florida.

Cornelius Haney: This rat-n*gger murdered a 21 year-old white woman named Heather Perry after being paroled in 2020 by Colorado's idiot "Democrat" governor, Jared Polis during the *ChinaVirus* pandemic. Polis had ordered the *Colorado State Board of Parole* to expedite probation and parole of inmates in order to protect them against the COVID-19 outbreak.

Cornelius Haney had a criminal history that extended back more than a decade. It should be patently obvious that blue state governors were far more concerned during the pandemic with the wellbeing of violent, black criminals than with the wellbeing of law-abiding white citizens.

Cornelius Haney, rat-n*gger

Travis Santay Lewis: This rat-n*gger murdered a woman and her daughter 24 years apart at their family home near Horseshoe Lake, Arkansas. He shot to death the mother, Sally Snowden MacKay (75 y.o.)

and her nephew Lee Baker (52 y.o.) in 1996, but was given a sentence of only 28.5 years after pleading guilty at age 16.

After being paroled in 2018, this retarded and vicious rat-n*gger returned to the scene of the crime and stabbed or bludgeoned to death Sally Snowden MacKay's daughter, Martha MacKay (63 y.o.) in March of 2020. The only redeeming thing about the life of this evil baboon is that he drowned in Horseshoe Lake attempting to escape from police, thus saving the State of Arkansas further expenses. (He sank like a rock.)

Sub-Human rat-n*gger

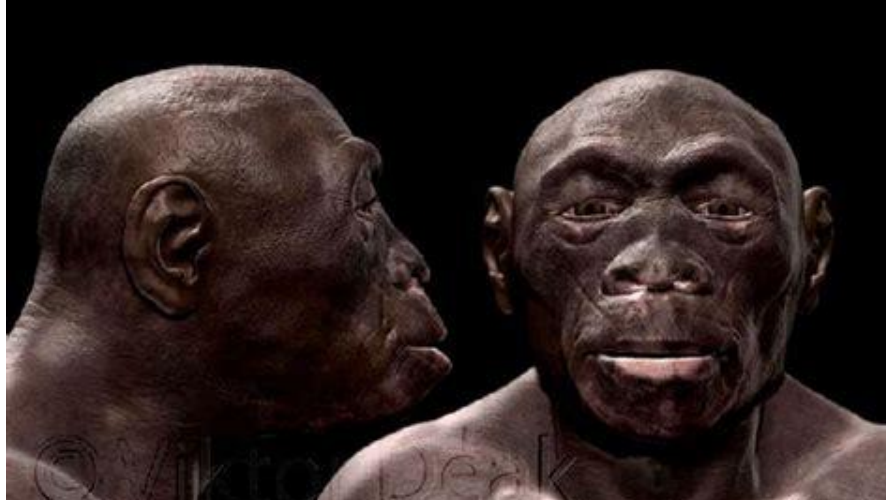

Ibrahim E. Bouaichi: This Muslim savage murdered a lovely woman named Karla E. Gonzalez in Alexandria, Virginia in July of 2020 after he was released from jail over concern that he might contract the

ChinaVirus. This murderous Islamic rat-ape had been previously incarcerated for raping, strangling and abducting Karla Gonzalez. Soon after his release, he shot his accuser to death to prevent her testimony at his upcoming criminal trial.

Disproving the lie that Islam is a "*religion of peace and tolerance*," this one-man, Islamic crime-spree shot and killed his accuser just like his black Muslim brothers would have done. Originally jailed without bond following the *ChinaVirus* pandemic, he was released on a \$25,000 bond requiring him to remain at home except to consult with the sleazy lawyers that demanded his release.

The murderer was released -- despite the prosecutor's objections -- by an incompetent n*gger circuit judge named Nolan Dawkins, who retired soon after this debacle. The only redeeming feature to this entire story is that Bouaichi finally shot himself to death after crashing his vehicle while law enforcement pursued him in Maryland.

Joseph "Turk" Williams: This rat-n*gger ventilated a man in Tulsa that he claimed stole his vehicle in July of 2020. He then abducted the deceased victim's girlfriend at gunpoint. This example of the species *Homo habilis* was convicted in 2015 of trafficking in methamphetamines and sentenced to 12 years in prison, but was given early probation due to concerns regarding the *ChinaVirus*. He is also wanted in Arkansas on a drug-related homicide.

Homo habilis

Lawrence Paul Anderson: In February of 2021, this member of the species *Homo habilis* murdered an innocent, 41 year-old white mother of two named Andrea Lynn Blankenship in her Grady County, Oklahoma home. Anderson illegally entered the victim's home before killing her, removing her heart and later cooking it with potatoes. This black rat-ape also murdered his own uncle and a little girl in the same rampage.

The black savage was serving a 20 year sentence for his most recent drug and illegal gun convictions when he was granted early release by Oklahoma's hapless Governor, Kevin Stitt (R). Anderson had earlier received sentences for drug possession, aggravated assault, selling crack cocaine near a school and parole violations, **BUT EACH TIME HE WAS GIVEN EARLY RELEASE.**

Josephus Davis: In January of 2021 in Philadelphia, this rat-n*gger and an accomplice murdered a 25 year-old white male named Milan Loncar who was a recent graduate of ***Temple University's School of Engineering***. Milan Loncar was innocently walking his dog about a block from his home when he was shot dead by the two in the course of a robbery.

Rat-N*gger

Davis has a long rap sheet that includes robberies, assaults, criminal conspiracy, car-jacking, robbery of a motor vehicle and kidnapping an **Uber** driver. This savage and feral animal was released two weeks before he murdered Milan Loncar after his bail had been dramatically reduced on the kidnapping charge.

N*ggers, Jewish communists, garden-variety communists and other "Democrats" are quick to attribute "racism" to just about every attempt society makes to protect itself from the violent, savage, witless and predatory nature of *Africanus criminalis* and *Homo habilis*. As a result, we have regressed into a society that protects the soulless savage at the expense of decent and law-abiding citizens.
