

Miscegenation Roundup

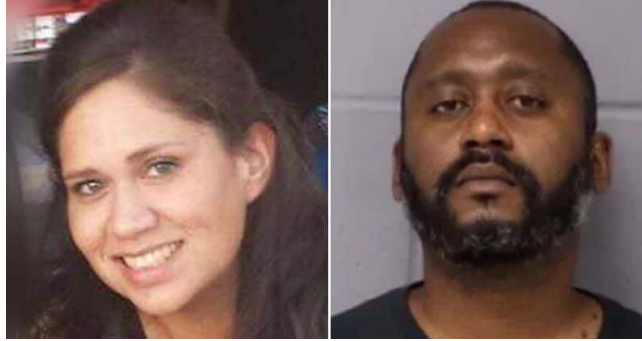

by Earl P. Holt III

Most white women have never been exposed to the fact that white women who marry black males are more than 12 times as likely to be murdered by their spouses as white women who marry white men. The risk is nearly comparable for white women who merely date black males. (AMERICAN JOURNAL OF PUBLIC HEALTH, May of 1989, Page 596, Table #3.)

Because of its systemic dishonesty, the Jews' Media must be recognized as an accessory or even an accomplice in many black- on-white murders of innocent white women. By censoring the very real dangers inherent in marrying or dating black males, it has obscured the ability of white women to assess the very real risks that accompany miscegenous relationships. That's why so many who enter into such a relationship end up dead.

Below is a small sample of the seemingly endless black murders of white women that give *Africanus criminalis* its well deserved reputation as violent, savage, witless and predatory, a reputation that is studiously censored or "spiked" by the Jews' Media.

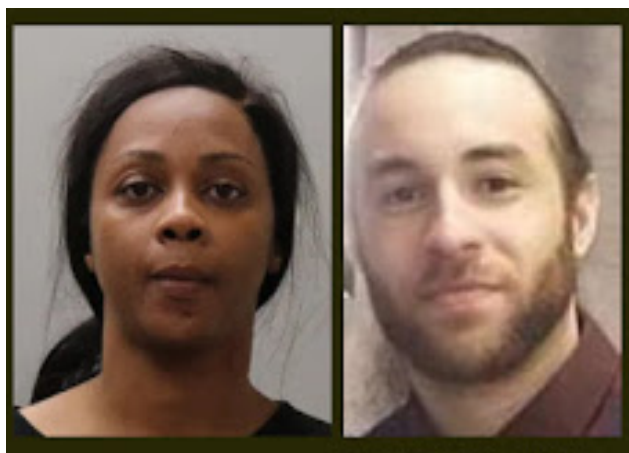

Amanda & Alyssa Broderick: This 35 year-old white woman and her adopted Asian daughter were murdered in Austin, Texas in April of 2021 by her estranged n*gger husband. The black-savage was a Sheriff's Deputy in Travis County who may have raped the daughter who, in turn, reported the incident to her mother. Amanda then filed a protective order against this n*gger, alleging rape of the daughter and ending his law-enforcement career and probably his freedom.

Michelle Lee Long: This 35 year-old white woman was beaten to death by a rat-n*gger in Kansas City, Missouri in April of 2021. The baboon claims the victim was a former girlfriend, and expressed "*puzzlement*" at his arrest by police, despite his bloody palm print found in the woman's apartment made **WITH HER BLOOD**. Naturally, he stole her car, also.

Christopher Fuqua: In April of 2021, this foolish 30 year-old white man was shot to death in Huntsville, Alabama during a domestic dispute with his rat-n*gger wife, Inez. This crazy nigress was well-known to police, because **she was charged in November of 2020 with second-degree assault after shooting at her husband 14 times in a hotel parking lot.** We routinely vilify white women who date or marry black men, but for a white man to marry a nigress is inexcusable.

Brenleigh Kitchens: This 20 year-old white woman was shot in the face and killed by her mixed-race, ex-boyfriend near Augusta, Georgia in April of 2021. The victim was described as kind, loving and generous. It is VERY unfortunate that no one ever warned her about the violent, savage, witless and predatory nature of most n*ggers.

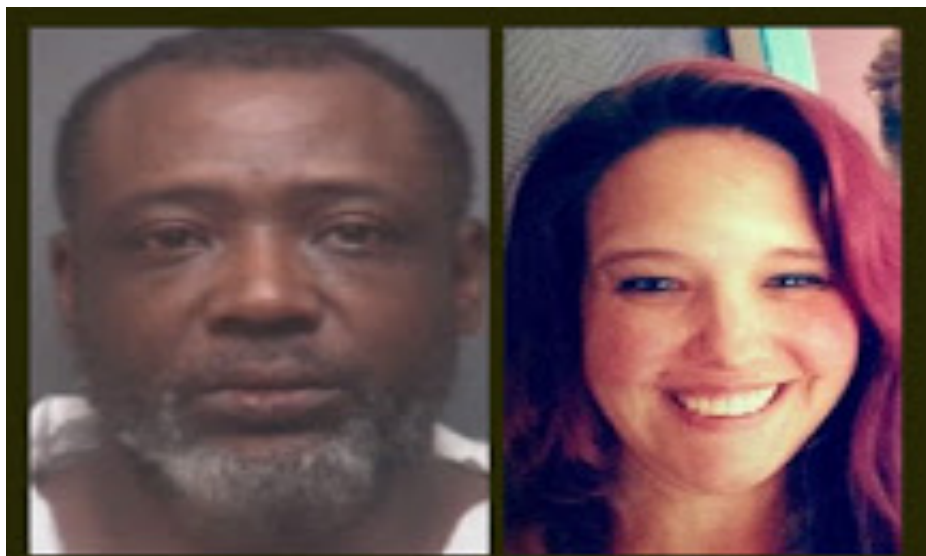

Murderer and Victim

Victoria Lowry: This 20 year-old white girl was driven to the top of an Arkansas mountain and stabbed to death by her n*gger boyfriend in May of 2020. Being a n*gger, he naturally stole her car after he murdered her. The black savage was recently sentenced to *Life Without Parole* in April of 2021.

Oblivious to its irony, one imbecilic local TV station speculated that "*evidence suggested he (Garner) wanted to end their relationship.*" This is an example of the way the news media dance all over the lot while reporting incidents of n*gger-on-human savagery.

Deborah Maxi: This 38 year-old white woman was fatally stabbed to death in the neck, chest and forearm by a n*gger in High Point, North Carolina in April of 2021. Like many murders that occur in the U.S., the fatal assault naturally took place on **MARTIN LUTHER KING** Drive. Killing whites is how the baboons pay homage to that phony race-hustler.

Deborah Maxi was described by someone on **Facebook** as a "*very outspoken woman*," whatever that may mean in this dishonest age. **I will be less charitable:** She was an obvious crack-whore, whose dalliances with n*ggers proved to be her undoing.

Faye Cornett: This foolish, 37 year-old white woman was fatally shot by her n*gger boyfriend in Oak Grove, Mississippi in April of 2021. The perp is being held on kidnapping and murder charges for abducting the victim's teenaged daughter after murdering the mother. Fortunately, the daughter was able to escape from the baboon the next day and called police from a nearby store.

Rhonda Pattelena: This 35 year-old white woman was murdered in March of 2021 by the n*gger father of their two- year-old child in York, Maine. Jefferey J. Buchannan -- maybe one of maybe three n*ggers in the entire state -- beat the victim, struck her in the head with a rock, and then dragged her behind some large rocks to hide his savagery.

Fortunately, there were many eye-witnesses and video footage of the attack, since this retarded black ape murdered his "*baby-momma*" in front of many people at a popular Maine beach. Thank GOD they are just as stupid as they are incredibly violent.

Kally S. Elliott: This 41 year-old white woman was shot to death in a motel room in the Wisconsin Dells in February of 2021. Showing his sentimental side, her n*gger ex-boyfriend killed her on *Valentine's Day*. The lying black bastard has revised his account several times, claiming at

first that the incident occurred during a struggle over the gun, but then changed it to self-defense. The n*gger has a long record of domestic violence against his victim.
