Dear Daria: You recently sent an e-mail to me in which you lamented the poor response to recent fund-raising efforts by the ***National Republican Senatorial Committee*** (NRSC.) As the NRSC usually does, you totally misinterpreted the message you received. Many of us very much wish to preserve the legacy of Donald Trump, but contributing to the NRSC is a poor way to go about it.

The problem is that most Trump supporters are sickened and appalled by the self-dealing and betrayal of RINO Senators over the last 30 years. Most of us recognize that with the exception of Ted Cruz, Josh Hawley, Tom Cotton, Rand Paul, Marsha Blackburn, Ron Johnson and John Kennedy, most current members of the Republican Caucus in the Senate are absolutely worthless and totally undeserving of any kind of support.

Other than these seven courageous GOP Senators, the remainder **NEVER** came to the defense of President Trump during his four years in office, even as he was being framed by "deep state" traitors and criminals in the FBI, Justice Department and intelligence community. These RINO fools accepted the slander and false charges of Hillary Clinton and the Jews' Media, and ran for the tall grass **JUST AS THEY ALWAYS DO.**

Some, like Murkowski, Romney, Collins, Burr, Cassidy, Sasse and Toomey even voted to Impeach President Trump in either his first or second Impeachment Trials. I can't speak for anyone else, but I would rather burn my money that see it benefit any of them. Gutless traitors like these are why I will **NEVER, EVER** contribute to the NRSC. I can't wait for all seven to be retired.

So please delete my name from your rolls and go away.
