

# The China Lobby

by Earl P. Holt III

The relentless vilification of President Trump -- a phenomenon that earned the label "*Trump Derangement Syndrome*" -- probably had its origins in a campaign orchestrated by the "*China Lobby*." I don't necessarily mean K Street lobbyists promoting trade with China, but rather, those members of our "*political class*" who are heavily invested in China and whose investments were threatened by the trade policies of Donald Trump.

**Recognizing an existential threat to their power and wealth from Trump, these oligarchs, kleptocrats and plutocrats colluded with each other and China to generate an atmosphere designed to incite the marginal citizens who comprise the "*Democrat*" Party's rank and file.** Retarded blacks, Stepford Children, queers, communist Jews, union thugs, garden-variety Marxists, feminists and mailbox-watchers were manipulated by the disinformation and propaganda generated by these traitorous centers of largely unchecked power and influence.

**Social Media:** One obvious conspirator against Trump was the industry known as "*social media*." By *social media* I mean the leftist cesspool of narcissism, self-absorption and disinformation characteristic of **Twitter, Facebook, Instagram, YouTube, Pinterest** and **Google**. Their pursuit of monopoly power to control political narratives – by censoring their political adversaries – was achieved with an rapidity that may be unique in America's past.

A clear indicator of their traitorous dishonesty was evident in their "*de-platforming*" of everyone who dared to suggest that the COVID-19 "pandemic" originated in the laboratories of communist China's **Wuhan Institute of Virology** (WIV.) Despite much corroborative evidence of

this theory's accuracy, anyone willing to make such an argument was immediately banned from social media, including even President Trump, the industry's foremost political enemy.

Tangible evidence supporting their claim -- that the COVID-19 virus originated at the WIV -- has dramatically mounted. This includes evidence from Dr. Li-Meng Yan, a Chinese national with both a PhD and an MD, who is a world authority on the *Coronavirus* and who did the earliest research on it at the ***Hong Kong School of Public Health***. She defected to America in 2020 to expose the WIV's role in engineering this virus, but despite her authoritative knowledge, she was also censored by social media, just like Donald Trump.

**Meanwhile, social media tolerates the vilest scum and trash found anywhere on the planet, including n\*ggers flashing their guns, their gold teeth and their ill-gotten gains from armed robberies and drug sales. Likewise, Iran's Ayatollah Khamenei is permitted to make the vilest and most fraudulent slanders of America, all Jews, Christian infidels, and everyone else their "*religion of peace and tolerance*" would love to slaughter. Meanwhile, not one word was permitted regarding the possibility of massive vote fraud in the November, 2020 General Election.**

**Higher Education:** 400,000 Chinese nationals matriculate at American colleges and universities each year. The tens of billions of dollars in tuition payments garnered by these "*institutions of higher learning*" translate into enormous financial windfalls for the latter. Tuition from Chinese Nationals has also clearly bought the loyalty of these institutions when it comes to defending communist China and attacking its detractors.

But the windfall from Chinese tuition payments is even more lucrative than it appears on its face. The surge in demand from tuition payments

by Chinese nationals has allowed these institutions to *raise* tuition costs for every other student: that is why U.S. tuition costs have accelerated faster than any other American "*good or service*" over the past 25 years. For most colleges and universities, the tuition payments from their Chinese students are a "*win/win*" phenomenon.

**As a consequence, these institutions conspire to obscure the role of prominent faculty members -- such as the head of the *Yale Chemistry Department* -- who willingly and knowingly accept bribes from communist China to collaborate with them on all kinds of technological and scientific matters. These schools are also very permissive in allowing "*Confucian Institutes*" on their campuses, which provide "*cover*" for those engaged in espionage and disinformation, in order to protect the cash-flow from their Chinese students.**

**Jews' Media:** The Jews' Media were willing accomplices in this campaign orchestrated against Donald Trump. In fact, many actively collaborated with efforts by corrupt FBI and Justice Department officials to frame Donald Trump, first as a candidate and later as President.

They published articles designed to appear as corroborating the lies and slander contained in the phony "*Steele Dossier*," even though their stories were based entirely on the Steele Dossier, itself, which had been fabricated by Hillary Clinton operatives. Their disinformation was cited in several fraudulent FISA applications in which bad actors from the FBI and Justice Department perjured themselves to obtain FISA Warrants to spy on Trump and frame him with their phony and concocted "*Russia collusion*" charge.

**The Jews' Media's motives were entirely political: They are co-conspirators with the "*Democrat*" Party in attempting to bring**

**America into the international socialist orbit and install a world government framework that leftists and socialists have lusted after for 100 years.** They realize that if America falls into the socialist orbit, the rest of the world will fall as well. These useful idiots are too naive and blinded by Marxism to recognize they would be among the first victims of any "*New World Order*" or any other socialist scheme.

**Hi-Tech Companies:** This term usually applies to *Microsoft, Apple, Intel, Google, Amazon, Oracle, Cisco* and others. The prospect of cheap labor had previously caused many of these globalist companies to relocate their manufacturing bases to China, traitorously depriving Americans of high-paying manufacturing jobs here in America.

Pressure from China and the prospect of seeing their manufacturing facilities "*nationalized*" made these *High-Tec* companies reliable co-conspirators and easy to enlist in the campaign to destroy Donald Trump and his Administration. **In turn, it also made them hostile to Trump's trade policies which, for the first time attempted to sanction China for its enormous trade surpluses and its theft of technology.** Trump wisely recognized these were the true "*fruits*" of China trade, instead of the "*reciprocal*" trade China had promised as a pre-condition for receiving *Most Favored Nation Trade Status* in the 1990s.

**Multinationals:** These are U.S. corporations that are often heavily invested in communist China. In addition to the *High-Tec* firms already mentioned, these include *Nike, Heinz, Ford, Gap, Coke, Pepsi, Starbuck's, Wynn Resorts, Kraft, Campbell Soups, Molson-Coors,* and *Caterpillar*, to name just a few. Wall Street Investment Banking firms such as JP Morgan, Goldman-Sachs, Citigroup and Merrill-Lynch negotiate many of these investments with banks in communist China. **Many constituted a source of political and financial opposition to Donald Trump and his administration.**

**"Democrats": The "Democrat" Party is rife with traitors who sold their souls to communist China in exchange for Chinese money and the promise of their place in the *New World Order's* power structure.**

Eric Swalwell (D-Beijing) is totally compromised after having slept with a Chinese spy named Fang Fang for years. She also contributed to his campaigns for Congress by funneling "*bundled*" donations originating in communist China. Despite these transgressions, Swalwell now sits on the *Permanent Select Committee on Intelligence*, which is akin to giving Count Dracula the master-key to all Red Cross blood banks.

Likewise, for 20 years Sen. Diane Feinstein (D-Wuhan) hired a chauffeur and office manager who was also a Chinese intelligence agent, and her multi-millionaire husband is heavily invested in China. Moreover, the entire Biden Family is literally owned by communist China, which has been paying them bribe money for decades through the phony businesses created by Hunter Biden. Hunter Biden even negotiated the sale of "*stealth*" technology to communist China during the Obama Regime.

In their own way, many in America's political and financial power centers have proved to be as vulnerable to treason, bribery and extortion as Tedros Adhanom, that lying n\*gger at the ***World Health Organization*** whose financial benefits from communist China have made him a wholly-owned Chinese possession as surely as its ***Wuhan Level IV Virology Lab***.
