

Critical Race Theory

Its origins, toxicity, carriers and antidote

by Earl P. Holt III

Critical Race Theory (CRT) is a manifestation of Marxist ideology whose rapid spread through American education, government, industry and our armed services reveals a traitorous conspiracy to subvert our legal and cultural traditions. Its objective is to indoctrinate and brain-wash vulnerable and captive audiences of students, employees and those in uniform with the malignancy of racial division, envy and revolution.

It is communist propaganda that indoctrinates vulnerable citizens with hate for America, hate for Western Civilization, hate for democratic capitalism and hate for white people by promoting racial antagonism, envy and revolution in America, and implemented by communist Jews, n*ggers, queers, Illegals, psychotics and other "*Democrats*."

ORIGINS: America was probably first infected by the plague of CRT in the 1930s when the Roosevelt Administration foolishly gave sanctuary to a number of Jewish, communist academics from ***Goethe University*** in Frankfurt Germany. These misanthropes are often referred to as representatives of the "*Frankfort School*" and they pioneered early manifestations of CRT at ***Columbia University*** in New York.

CRT "*reformulated*" traditional Marxist Theory into a race-based program. Its ultimate objective is a revolution that destroys America's Constitutional Republic by methodically discarding our founding principles of individual liberty, free markets, Rule of Law, equality under law, and government by consent of the governed.

CRT is one of many battles in the *Culture War*, and an example of the "long march through the institutions" first proposed by Italian communist Antonio Gramsci. This **INCREMENTAL** approach to revolution was deemed more practical than communism's traditional reliance upon a violent revolution by workers. It also substituted race division for Marxism's traditional focus upon class division.

Even Marxist pseudo-intellectuals recognized that a Bolshevik-style communist revolution -- based on class -- could never take place in America because of our political and cultural traditions of Rule of Law, democratic capitalism, and the Second Amendment to the Constitution. In addition, the U.S. has always had a large and growing *economic "middle class,"* and a rapidly improving standard of living for nearly everyone willing to work.

Moreover, America doesn't really have true "classes" -- the remnants of European Feudalism -- since the U.S. Constitution specifically forbids "*Titles of Nobility.*" Likewise, the U.S. economy offers nearly endless opportunities for anyone with talent and ambition to raise themselves above the *economic* class into which they were born.

America is probably vulnerable to CRT primarily because capitalism creates great disparities in wealth between its most successful citizens and those with little talent or ambition. Even blacks -- most of whom are lazy, child-like and borderline retarded -- have endless opportunities. Yet, while envy preoccupies the black community, hard work and talent are a rarity outside athletics, and opportunities like free public education are routinely squandered.

Not surprisingly, black America proved to be fertile ground for an ideology promoting violent revolution and promising to confiscate and redistribute other people's wealth. Hence, "*leaders*" of the **Black Panther Party** regularly visited Beijing in the 1960s and developed a

close personal and ideological relationship with fellow psychopath, Mao Zedong.

Like other communists, Mao worked to channel their hatred and savagery into a "*Fifth Column*" in America, employing the negro's natural inclinations toward reflexive violence and criminality. The ultimate goal of international communism was to generate a communist revolution inside America by substituting "*race*" for Marxism's traditional focus on "*class*."

TOXICITY: Its disdain for objective truth has enabled the left to be more creative at generating and promoting propaganda that is useful in political warfare. They often employ ambiguous terms like "*diversity*," "*social justice*" and "*equity*," along with vague catch-phrases such as "*white skin privilege*," "*social justice*" and "*systemic racism*."

Ignoring all the phony intellectual jargon used to obscure its Marxist origins and goals, CRT is a blueprint for subverting America (and Western Civilization) by interpreting its most sacred institutions as mere devices that allow a minority in power (the "*bourgeoisie*,") to dominate and rule over an oppressed majority, the "*proletariat*."

More specifically, CRT also teaches that America is a fundamentally evil and racist society, whose entire history consists of endless misdeeds by an oppressive class of "*white supremacists*," perpetrated against a permanent underclass of blacks, Latinos and "*Native Americans*." It's understandable how a message of this sort might find fertile ground in the empty skulls of many primitive demographic groups.

In the frenzied minds of power-hungry Marxist losers, our Divinely-Inspired foundational documents -- including the ***U.S. Constitution***, the ***Declaration of Independence*** and the ***Bible*** -- are merely a framework permitting white oppressors to maintain their positions of power over

other groups. The typical Marxist's understanding of America's legal and cultural traditions is equivalent to Bill di Blasio's understanding of the causes of crime.

Communists must often be cautious in declaring their true objectives and political agenda, so they constantly make efforts to obscure them. They may privately advocate the forcible overthrow of all existing social and cultural institutions, but they must camouflage their true objectives and ambitions in obscure vernacular and euphemism.

However, the violent 2020 riots by the communist thugs of *Antifa* and n*gger criminals of *Black Liars Murder* demonstrate a radical change in tactics: These were not "*spontaneous*" or "*peaceful*" demonstrations -- as shamelessly misreported by the traitorously communist Jewish media -- they represented the next phase of violent societal collapse as prescribed and envisioned by CRT.

Exactly like Russia's *Bolshevik Revolution* in 1917, the purpose of the BLM and Antifa riots in 2020 -- occurring in the BLUE CITIES of New York, Minneapolis, Saint Louis, Philadelphia, Portland, Seattle, Chicago, Atlanta, Baltimore and Washington -- were to generate chaos and a total breakdown of law and order, which these modern-day Bolsheviks intended to use as an opportunity to seize power in the name of "*social justice*."

CARRIERS: Initially, CRT spread through academia, where subversive and traitorous ideas instantly become "*fashionable*" among pseudo-intellectual frauds with no real scholarship. From there it quickly spread to the corrupt leftist media and then metastasized throughout popular culture and social media. From the schools contaminated by CRT, generations of indoctrinated students flooded academia, industry, the media, and popular culture.

It has invaded the curriculum of many public school systems, as well as so-called "higher education," teacher training programs and "*diversity training programs*" for government, industry and our armed services. According to one expert on this subject, Christopher Rufo, CRT has become "***the operating ideology of our public institutions....and a tool of political power***" to be used against whites.

After CRT had spread through academia like the *ChinaVirus*, communists and other traitors first attempted to introduce it into Arizona's schools in 2013. However, the Arizona State Legislature wisely and courageously enacted a law that banned any courses "*that promote the overthrow of the U.S. government, foster racial resentment, are designed for students of a particular ethnic group or that advocate ethnic solidarity.*"

Almost seamlessly, CRT's proponents then moved on to California -- the land of fruits and nuts -- where much of the lunacy fabricated by academic charlatans is welcomed by the fools and self-dealing poseurs who chronically mis-govern that state. California's seemingly oblivious population are often guinea pigs for such clinical trials.

California's ***State School Board*** and its legislature have toiled for years to develop its so-called *Ethnic Studies Model Curriculum* (ESMC.) Naturally, It is based on the racial and ethnic division of CRT, and its ultimate objective is to promote a violent revolution based on race and thus mirror Russia's *Bolshevik Revolution* based on class distinctions.

Not surprisingly, the Biden Administration's ***Department of Education*** is openly promoting CRT in U.S. public school classrooms. In April 2021, it released a new rule establishing priorities for the award of grants to programs in American History and Civics Education that incorporate CRT in their curricula.

The next step by CRT's proponents has been to intimidate government and business into holding mandatory training programs -- more

accurately, Orwellian "*re-education camps*" -- featuring its perverse and twisted ideology. Much as in the totalitarian system they advocate, any failure to parrot the treacherous lies of CRT could be detrimental to one's employment status, particularly in the case of courageous people with the guts to question their indoctrination. Obese Nigrass Telling Whites *They Bees Racist*

ANTIDOTE: Stuck at home during the COVID-19 lockdown, many parents were rudely awakened to the indoctrination to which their kids were being subjected. It sounded a lot like the poisonous and malignant ideas found in the babblings of an Al Sharpton. They were usually couched in what were often novel but inflammatory terms such as "*white skin privilege*," "*systemic racism*," and "*white fragility*."

Many parents may also have noticed that the curriculum was dismissive of our foundational documents and cultural traditions. Even worse, many were outraged that this brain-washing was being funded with THEIR TAX DOLLARS! Some were finally driven to take action, and school administrators and school boards at the municipal and county levels often became the targets of their wrath.

It will take such **GRASS ROOTS INVOLVEMENT** to eliminate CRT from public education. Parents and right-thinking citizens must aggressively work to fire or retire every school board member, administrator and teacher who was complicit in allowing CRT into its curriculum, and replace them with serious and tough-minded people unafraid to remove CRT, *root and branch*. It takes guts, not genius to effectively serve on a county school board.

There are also several legislative reforms that can be enacted at the federal, state and local level that would effectively put an end to CRT, but they require more courage than the Republican Party has traditionally mustered. The first of these is to **CHLOROFORM THE U.S. DEPARTMENT OF EDUCATION**. That's where the really crazy ideas like "Common Core," "New Math," "White Skin Privilege," "No Child Left Behind," "gender identity," and CRT's "ethnomathematx" (sic) are dreamed up by Marxist charlatans.

It is also where the lunacy of CRT trickles down to the various education departments at the university level, since the DOE funds most of their laughable and subversive "research." From there, it trickles down to retarded black illiterates and the Jewish communists who run the misnamed **National Education Association** (NEA.) The latter have done for American public education what homosexuals and child-molesters have done for the reputation of the Roman Catholic clergy.

Third,, states must enact **TUITION TAX CREDITS**. Despite years of lip-service by the Republican Party promoting *Tuition Tax Credits* in their

fundraising, such programs are as rare as unicorns. That's because of Republican cowardice and the power of the teachers' unions to fund the GOP's leftist political opposition. State legislatures now have as legitimate and justifiable a reason to enact *Tuition Tax Credits* as they have ever had, and there may never be a better opportunity. To do so would be good politics and good policy.

CRT has provided that opportunity, because the obvious rot in public education is so deep it cannot be reformed. Tuition Tax Credits would not only isolate CRT into a few hopelessly BLUE enclaves, it would also erase the power of the monopolistic NEA in one fell swoop. It would empower any parent -- black, white, Asian or Latino -- having the sense to recognize that the public schools are a place where tax revenues and meaningful educations go to die.

Third, Congress must **DENY FEDERALLY-GUARANTEED STUDENT LOANS TO ANY SCHOOLS THAT IMPOSE SO-CALLED "SPEECH CODES."** These are nothing more than a means to censor debate, and in particular, stifle the conservative point of view before it can be articulated. Speech codes make indoctrination and brain-washing much easier for those promoting CRT and other manifestations of Marxism.

Finally, the next Congress should **DENY FEDERAL TAX MONEY TO ANY SCHOOL THAT INCORPORATES CRT INTO ITS CURRICULUM.** While they are at it, Congress should deny federal funding to any school that advocates Marxism or the violent overthrow of the United States, pursuant to *U.S. Criminal Code Title 18 Section 2384* regarding *Seditious Conspiracy*.

All decent Americans should join in this fight to save American education and America's cultural traditions by driving out the race-hustlers, charlatans, communists and traitors from education,

government and industry, just as Jesus Christ drove the money-changers from the Temple in Jerusalem.
