

# Tangled Webs

by Earl P. Holt III

What endless tangled webs they weave,  
because they practice to deceive.  
*"Defund the cops"* the fools decreed!  
While murderers were rashly freed.

*Remain in Mexico* was spurned:  
*Catch and Release* was soon returned,  
The border is now over-run,  
with wetbacks and drugs by-the-ton.

They *ear-mark* Billions to their friends  
Who pray the *free stuff* never ends.  
But multi-Trillion deficits  
give our financial markets fits.

Joe Biden's drug-addicted son  
robbed the Ukraine without a gun.  
But now his laptop and e-mail  
Expose his crimes in great detail.

Election audits should reveal  
what *Democrats* shamelessly steal.  
It surely will be worth the wait  
If it should seal that party's fate.
