

## ***Agent Provocateurs***

by Earl P. Holt III

In the June issue of the ***INFORMER***, I warned conservatives and white nationalists that we must be much smarter and not allow ourselves to be led astray by our mortal enemies acting as ***agent provocateurs***. ("*We've Got to Be Smarter.*")

I cited the occupation of the Capitol Building by Trump supporters on January 6th and the debacle in Charlottesville, Virginia in 2017 as examples of well-intentioned demonstrations that were subverted and turned against us by *agent provocateurs* among the ranks of our mortal enemies. The end result of both protests was to reverse the momentum of our political movement, and turn sincere and justified protests into an unprecedented PR windfall for our mortal enemies to attack us. As I stated in June:

***"You would think that after the debacle in Charlottesville in 2017, well-intentioned Trump supporters would be reluctant to follow agent provocateurs of the left, especially those dressed like Antifa, or nigs engaged in their instinctive acts of violence. Sadly, some Trump supporters foolishly and blindly handed the Jews' Media the greatest PR victory it's ever been given, allowing them to attack Donald Trump, his supporters, the conservative movement, and the white nationalist movement."***

**I should also have included the plot to kidnap Governor Gretchen Whitmer of Michigan in that article.** It now appears that some of the individuals who were instrumental in investigating and arresting those involved in this plot to kidnap Whitmer have themselves been arrested and appear quite dirty. Their sleazy personal lives lend some credence to allegations by Defendants charged with this criminal conspiracy that they ***REALLY WERE*** entrapped by the FBI.

According to the **NEW YORK POST**, the FBI had at least one dozen informants who were directly involved in the conspiracy, and these *agent provocateurs* did as much to encourage the plot to kidnap Whitmer as they did to prevent it. One agent provocateur named Stephen Robeson -- later arrested on the unrelated charge of being a convicted felon in possession of a firearm -- even organized planning sessions and paid for food, motel rooms and transportation to recruit participants. (Dana Kennedy. "Bizarre Arrest of FBI Agent Spotlights Accusations of Bureau Corruption." **NYP**, July 24, 2021.)

More recently, FBI Agent Richard Trask -- who was instrumental in investigating and arresting the "*conspirators*" -- was himself arrested for beating the sh\*t out of his wife after they allegedly attended a "*swingers party*." (That's where couples share their spouses sexually with other couples, and maybe why the FBI was too busy to investigate the November Presidential Election.) He faces a maximum sentence of 10 years on the domestic violence charge, and his bail was set at \$10,000. What a piece of work!

In the arraignment of one defendant back in October of 2020, his attorney argued that those charged as conspirators were really "*militia wannabees*" who engaged in "*big talk between crackpots*." This same attorney argued that it was actually the FBI's own informants who actively encouraged the militia wannabees to conspire. He claimed the activities of the FBI's informants "*raised suspicions that without FBI involvement the 'plot' would never have gone anywhere.*"

**Granted, even law-abiding residents of Michigan might have been quite pleased if Gretchen Whitmer really had been *snatched* and disappeared for good, but we've GOT to be smarter than that. We can't continue to allow a corrupt FBI, communists and n\*ggers to mislead us as *agent provocateurs* and hijack peaceful demonstrations creating PR**

windfalls for the Jews' Media and their communist allies. That's a formula that can't possibly be sustainable.

In the future, law-abiding conservatives, white nationalists and Trump supporters need to ask themselves if the activity they are being encouraged to engage in is ONE THEY WOULD DENOUNCE THE LEFT FOR DOING. If we observe this principle, we should be able to exercise our First Amendment Rights, and never again hand over such a PR windfall to the traitorous enemies of freedom and the Constitution.
