

Driving With *Black Skin Privilege*

by Earl P. Holt III

Lying, crooked and devious blacks inevitably cry "*racism*" whenever they are caught red-handed doing something illegal. A Minnesota State Representative named John Thompson (D-67A) did exactly that when he was stopped on July 4th in St. Paul by one of its police officers.

Thompson reflexively accused the cop who stopped him of "*racial profiling*," and began chastising the officer for doing so. The officer's body camera revealed Thompson stating:

"...You profiled me because you looked me dead in the face and I got a ticket for driving while black...You pulled me over because you saw a Black face in this car...What you're doing is wrong to black men, and you need to stop that. Thank you so much but this ticket means nothing to me..."

In fact, the officer pulled Thompson over because he had **no license plate on the front of his vehicle**. In addition, his Driver's License was found to be **suspended for unpaid child support, and it was also issued by Wisconsin** rather than Minnesota. In fact, Thompson is such a lying and scheming n*gger, that he may not live in his own House District or even in Minnesota!

This prompted the ***Minnesota Police and Peace Officers Association*** to request that Minnesota Attorney General Keith Ellison investigate Thompson's "*dual residency*." Unfortunately, Keith Ellison is an equally corrupt Black Muslim who never brought charges against ***Black Liars Murder*** or ***Antifa*** for their arson, aggravated assaults and rioting in 2020. AG Ellison is more likely to indict *Bigfoot* than investigate a fellow n*gger.

The precise location of Thompson's residence ***SHOULD*** be of interest to ***HONEST*** officials in Minnesota. When Thompson registered as a candidate

with the **Minnesota Secretary of State's Office** in 2020, he signed an affidavit in which he originally entered a St. Paul address, but then crossed it out before entering a P.O. Box. Based on my extensive experience with nigras, it wouldn't surprise me if he really **DIDN'T** live in Minnesota.

A courageous Republican State Senator named Mary Kiffmeyer has requested that Minnesota's **Secretary of State** -- a Jewish leftist from the leftist *Democrat-Farm-Labor Party* named Steve Simon -- explain how he managed to verify Thompson's residency when Thompson ran for office last year. I hope she realizes that Simon is more likely to find a unicorn.

She stated: ***"The public normally is able to view candidate filings to hold them accountable for living where they are running. In the absence of a public filing, it's important to know what, if any steps, the Secretary of State took to ensure a candidate using narrow privacy protections actually lived in the district they are required to live in."***

Simon denied responsibility by citing the Minnesota statute that permits candidates to retain privacy concerning their place of residence. He also denied that his office had adequate ***"investigative or law enforcement powers of the kind that (Kiffmeyer's) letter suggests."*** What a lying piece of sh*t! The *Secretary of State's* office wouldn't have to **PUBLISH** the addresses of state legislators, merely **VERIFY** them!

I hope the decent citizens of Minnesota are weary of stolen elections and corrupt n*ggers, Moslems and Jews subverting the Rule of Law in Minnesota. They need to investigate the 2020 Presidential Election as a prelude to investigating every national election in Minnesota going back 20 years.

Massive voter fraud by "Democrats" didn't begin with Al Franken's stolen election in 2008, when a duffel bag of "uncounted" ballots handed Franken a U.S. Senate seat.
