

Paul Mitchell -- Good Riddance

This former U.S. Congressman (R-MI-10th) died of cancer on August 15th. He was exactly the kind of "*Republican*" we need to purge from public office. His dying words were symptomatic of the weakness, cowardice and equivocation characteristic of far too many Republicans in Congress.

I NEVER heard of this guy until he resigned from the Republican Party in 2020 to protest President Trump's attempts to challenge the 2020 national election, which even fools like Mitchell **SHOULD HAVE** known was stolen through massive vote fraud by the *New Communist Party of the U.S.A.* (NCPUSA,) mistakenly called "*Democrats*."

I sure as hell never heard him defend President Trump against the Obama holdovers in the DOJ, FBI, CIA, and NSA who attempted an illegal, treasonous and unconstitutional coup against Trump and others in his administration.

True to form, when it came time to renew the ***Foreign Intelligence Surveillance Act*** (FISA,) Mitchell voted to renew it even after a dozen high-level Justice Department and FBI employees were found to have perjured themselves before the FISA Court in order to frame Donald Trump with the phony "*Russia Collusion*" charge.

Mitchell made a lot of recent statements that expose the fact that he just didn't get it when it came to America's most malignant domestic enemy, the NCPUSA. He recently called for "*bipartisanship*" and stated in a deathbed interview with the ***Communist News Network*** (CNN,) that "***There's value in people you don't agree with.***"

The sad truth is, there's NO VALUE *WHATSOEVER* in people who would engage in voter fraud for 50 years and eventually steal a Presidential election, promote Marxism through "*Critical Race Theory*," welcome 36 million losers from the Third World, bankrupt America, and enrich their political allies with the earnings of others.

Mitchell never understood that the NCPUSA is only interested in THE ONE THING that all Marxists relentlessly pursue, and that's POWER! The U.S. doesn't need any more "*bipartisanship*" or any more fools like Paul Mitchell: it needs to purge the communists, felons and organized crime figures in the NCPUSA from every public office all the way down to dog-catcher.
