

Fate of the Dodos?

The Dodo Bird is now an extinct species, primarily because it was unable to recognize its enemies when they first appeared. It was a flightless bird that was indigenous to the Island of *Mauritius* in the Indian Ocean, and evolved with no apparent enemies in the form of predators. That is, until man arrived: Men hunted it relentlessly, and also introduced cats, dogs and rats to the island, all of which contributed to its extinction.

Unfortunately, many white Christians are much like the Dodo, and seem to be oblivious to certain enemies who are intent upon destroying us. Peggy Noonan once said of Ronald Reagan in *What I Saw at the Revolution*, that he was such a decent and honorable man, he couldn't understand the lying, dishonorable and traitorous nature of crooked "Democrats" like Tip O'Neil. Christians tend to have a similar blind spot.

Ecumenism has helped blind us to the fact that Jewish communists are intent on our destruction, and have been plotting it since the Bolshevik Revolution more than 100 years ago. Likewise, many Moslems are closer to Ilhan Omar (D-Somalia,) Rashida Taliban (D-Tehran,) Barack Obama (D-Kenya,) or Minnesota Attorney General Keith Ellison (D-Nigeria,) than the friendly Moslems one might bump into at PTA Meetings or convenience stores.

Similarly, well meaning white Christians who attend integrated churches assume the polite and pleasant blacks with whom they worship each Sunday are decent and honorable Christians like themselves. They may be correct for the most part, but the decent blacks with whom they pray are a tiny minority of perhaps five or 10 percent of the total black population.

Whites often make the mistake of assuming that the few blacks with whom they have regular and friendly contact are representative of blacks as a whole. This is **HARDLY** the case: Most whites rarely come face-to-face with the violent, savage, witless and predatory majority, or its violent "*sub-culture*" of guns, drugs, sexual assault, thuggish behavior, drugs, ubiquitous violent crime and drugs.

Many of the latter are incarcerated in state prisons or county jails, or spend their time sitting on their asses and waiting for a check from "*Uncle*." They are also busy breeding illegitimate and retarded offspring, selling or using drugs, committing robberies or burglaries or car-jackings, or else they sleep all day so they can begin their clandestine activities at nightfall, when those activities are hidden by darkness. My black Resident Manager used to refer to the latter as "*night-crawlers*."

Whites who have managed to avoid denizens of this particular strata of "*society*" are simply lucky. We must remember Matthew 10:16: "***Behold, I send you forth as sheep in the midst of wolves; be ye therefore wise as serpents, and harmless as doves.***" (KJV.)

I'm not certain I endorse that "*harmless as doves*" admonition...
