

The Parting Shot of a Sociopath

I hope there aren't any readers of either the **CITIZENS INFORMER** or our CofCC website who doubt that the so-called "*Democrat*" Party is really the **New Communist Party of the United States of America** (NCPUSA,) and just as destructive and malignant as its predecessor. I have marshalled so much evidence to support this, it should be beyond dispute.

The most recent example was the parting shot by disgraced former Governor Andrew Cuomo of New York. The last thing this absolute piece of trash did was to grant clemency to a fellow communist who participated in the murder of two police officers and a private security guard in the course of robbing a *Brinks Truck* in Nyack, New York in 1981.

At a time when law enforcement officers have become the target of nigger and communist trash all across the nation, Cuomo granted clemency to domestic terrorist David Gilbert, formerly of the *Weather Underground*. Gilbert was sentenced to 75 years for his involvement in the 1981 *Brinks* robbery, and is suspected of a role in many bombings of government buildings and corporate headquarters, as well as assisting in the escape of convicted felons.

Gilbert and his wife Kathy Boudin transported members of the *Black Liberation Army* to their heist of the *Brinks* truck in Nyack, where their nigger accomplices stole \$1.6 Million and murdered the two police officers and the security guard. All three victims had families, and were military veterans from working-class backgrounds.

At his criminal trial, Gilbert was unrepentant and has defiantly referred to himself as a "*political prisoner*" during his 40 year incarceration. Like

any true communist, he euphemizes his murderous activities by dismissing them as "*revolutionary expropriation*." According to Michelle Malkin, he has also been "*advising Black Lives Matter leaders and other fledgling Marxist groups*" while in New York's "*Big House*."

Cuomo's treason follows similar traitorous acts by fellow NCPUSA members Bill Clinton and Barack Hussein Obama: both of whom granted clemency to communist Puerto Rican terrorists (FALN) who murdered many innocent victims in New York City and elsewhere with bombings in the 1970s and 1980s.

One of those bombings by the FALN occurred at historic *Fraunces Tavern*, the location in New York City where General George Washington -- overcome with emotion -- bid farewell to his officer corps on December 4, 1783, nine days after the last British troops had left American soil. Soon after, General Washington resigned his commission and returned to his beloved *Mount Vernon*.

The treasonous use of clemency powers by Cuomo, Obama and Clinton are just more proof of why the NCPUSA must be denied power until it disappears as a political party.
