

Can't Get the Jungle Out

In an unprovoked attack, a big, fat and ugly 18 year-old niggess and High School Freshman beat the hell out of her 64 year-old wheelchair-bound white teacher.

The jungle ape who perpetrated this outrage is named Larrianna Jackson of Covington, Louisiana. It has been charged with felony battery.

The injured English teacher was taken to a nearby hospital and will recover. However, she was badly bruised by the jungle ape whom the Jews' Media will no doubt eventually describe as an "*Honor Student*."

The jungle ape in question appeared to be quite pleased with herself as indicated by her coy smile in her booking photo or "*mug-shot*." Otherwise, it appears to be devoid of any recognizably human instincts or features.
