

December, 2021 Black Crime Roundup

By Earl P. Holt III

Concetta “Connie” Tuori: This 93 year-old white woman was murdered in her condo in Syracuse, New York in February of 2021. Her murderer is a 23 year-old n*gger psychopath named Victoria Afet, who followed the victim to her home, murdered her, and then took up residence in her victim's apartment like a primitive parasitic creature.

Connie Tuori was a world traveler who never had any problems in her travels, which must have included destinations without n*ggers. Like most jungle-apes, the murderous ape has been arrested at least 10 times within the past year. Owing to **Black Skin Privilege**, a n*gger judge named Felicia Pitts-Davis released this murderous n*gger **ONE WEEK BEFORE** she murdered Connie Tuori, and 24 hours after she had "strong-armed" and bitten another elderly female in the same building.

Niggess psychopath, 93 year-old Victim and Stupid N*gger Judge

Julie Eberly: This 47 year-old white woman was fatally shot by a trousered ape in Lumberton, North Carolina in March of 2021. Mrs. Eberly and her husband were driving from Pennsylvania to Hilton Head,

South Carolina to celebrate a wedding anniversary when Mr. Eberly accidentally caused an adjacent vehicle to swerve by changing lanes.

Naturally, this prompted the jungle-ape in the other vehicle to pull alongside the Eberly's car and open fire multiple times. Julie Eberly was a mother of six. Charged in her murder is a retarded n*gger who has a prior criminal record for assault with a deadly weapon with intent to kill. This n*gger should be handed over to Julie Eberly's family to do with as they please...

Lucia Bremer: This 13 year-old white girl was gunned down by a sub-human rat-n*gger in Henrico County, Virginia in March of 2021. The 14 year-old baboon pumped multiple rounds into her as she innocently walked along a road in her family's upscale neighborhood. Police believe the n*igger savage murdered her as a gang initiation rite that required randomly killing a white person. **Note to all commie Jews, n*iggers, queers and communists out there: THAT'S WHY THERE WAS A KLAN!**

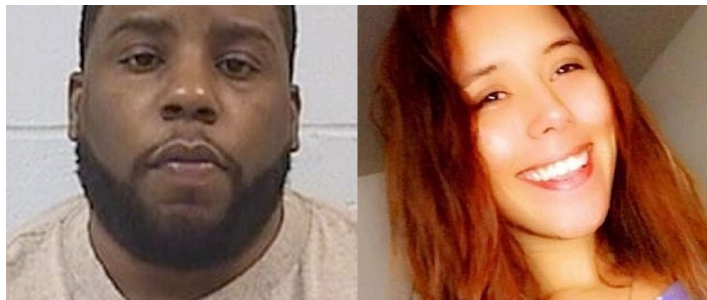

Heather Hobbs: This 37 year-old white woman was fatally shot in Fort Wayne, Indiana in February of 2021. The suspect is a 21 year-old n*gger named Tykwan L. Walker, who is on the lam. There are no reports indicating whether the victim and her murderer had a relationship of any kind, but the murder took place on *Valentine's Day*. The remains of Heather Hobbs were discovered about five weeks after her murder.

Juanito Falcon: This 74 year-old Hispanic male was struck in the face by a black baboon in February of 2021 at a restaurant in Phoenix. The blow caused Mr. Falcon to fall and sustain a fatal brain injury. There was no apparent motive: His murderer was a 40 year-old n*gger named Marcus Williams, who didn't know the victim but may have assumed he was white or Asian, which is often considered sufficient justification for murder among violent, savage, witless and predatory n*iggers with IQs lower than their shoe sizes.

Kevin W. Schneider & Dennis Kloth: These two white men, aged 39 and 51 respectively, were murdered by a rat-n*gger co-worker named Fraron Cornelius near Milwaukee in March of 2021. Both were shot to death by this witless and savage baboon. The three worked together for 20 years at a grocery distribution warehouse.

It has been speculated that his two victims discovered the n*gger was embezzling money or other items of value from their employer. This murderous ape had no criminal record, which merely confirms that they are capable of heinous acts at the drop of a hat. Fortuitously, the n*gger had the decency to kill his own black ass afterwards, which may have been the first useful thing this n*gger ever did.

Mishealia M. Meredith: This 19 year-old white girl was fatally shot to death by a n*gger predator in Harrisburg, Illinois in March of 2021. This teenager and student went missing while taking a walk, and it is speculated that the savage ape who murdered her first abducted and then raped her. Her murderer is a 36 year-old n*gger named Alexander McWilliams, who has been charged with first degree murder.

*Sub-Human Rat-N*gger & Innocent Victim*

Robert Shook: This 38 year-old white male was the last of six victims murdered by former **N*gger Football League** player Phillip Adams in Rock Hill, South Carolina in April of 2021. Mr. Shook was one of two unlucky HVAC contractors working at the home of Dr. Robert Lesslie, the

primary target of Adams' mass slaughter because Dr. Lesslie wouldn't prescribe controlled drugs for him. Initially, Mr. Shook was not reported as one of Adams' murder victims because he lived for several days after the mass slaughter. He is survived by a loving wife and three children.

Trenton Morin: This 16 year-old white male was shot to death in Flint, Michigan in April of 2021, probably by a 20 year-old rat-n*gger who was his supposed friend. The nig claims he grabbed a shotgun from the deceased to prevent him from committing suicide, but the n*gger's fingerprints are on the trigger of the weapon.

No one who knew him well believes Trenton Morin was suicidal, and the likelihood of a n*gger murder suspect confessing his crime may be less likely than finding a unicorn and a leprechaun, simultaneously.

Cody Walker: This 14 year-old white male from Pace, Florida was murdered in March of 2021 near Munson, Alabama by two teenaged n*gger-savages, ages 18 and 19, who probably attempted to rob him during a drug deal. One black bastard is in custody and the other is on the ***FBI's Ten Most Wanted List***.

Dumb white kids who foolishly engage in drug transactions with n*ggers don't understand that most nigs will murder them for a mere fraction of the money usually involved in a street-level drug transaction. If a nig can successfully "get the jump" on a customer during a drug deal, he will often murder him to recoup both the drugs and the drug money. That's why so many nigs murder each other over drug deals in our large, urban areas in the middle of the night.

Ray Wishropp: This 49 year-old white man and father of seven was shot and killed by a rabid ape in Valley Stream, New York in April of 2021. He was murdered by a n*gger whom police describe as a "*disgruntled employee*" of the store managed by Mr. Wishropp. (**WHEN** are they ever "*gruntled*"???) It appears that the murderer was denied a transfer to

another store, so he returned and shot every employee, killing Mr. Wishropp.

Lena Morgan: This 24 year-old white woman was murdered in a drive-by shooting at a Kannapolis, North Carolina convenience store in April of 2021 by a savage jungle-ape. Prior to fatally shooting her, the 22 year-old rat- n*gger stalked the victim for several hours attempting to collect on what is believed to be a \$300 debt. Both victim and perp were from Concord, North Carolina, and the debt may have been a drug debt.

Dustin Lane Rape: This 35 year-old white male was murdered in Monroe, North Carolina in April of 2021 by a mixed-race n*gger baboon. An altercation between the two apparently led to the incident. The rat-monkey has been charged with first degree murder because he left the scene but later returned with a firearm to murder his victim.

Ahren DeHart: This one year-old baby was murdered by a savage, sub-human rat-n*gger who was baby-sitting him in El Paso, Texas in April of 2021. The lying 24 year-old black bastard claims he was showing the child a "*wrestling move*," but this innocent child died of a skull fracture, brain damage, a lung hemorrhage, and abdominal injuries.

Roger Dean: In November of 1985, this 51 year-old white man was shot to death in his home in Lone Tree, Colorado by a rat-n*gger who intended to rob him and his wife. Thanks to the Godsend of genealogical DNA profiling, Mr. Dean's murderer was finally arrested in April of 2021, 35 years later! Readers will be astonished to learn that it was a n*gger having a long arrest record in Denver who perpetrated the murder! He is charged with first degree murder and kidnapping.

Eric Stokes: This 17 year-old white male was shot and killed in Wichita, Kansas during a home invasion and subsequent robbery by two n*ggers and a female piece of white trash in April of 2021. Police believe the robbery to be drug-related, and that the three perpetrators intended to

rob Eric Stokes and several acquaintances who were visiting his residence.

Caleb King: This 20 year-old white male was shot to death in Wilmington, Ohio by a stupid n*gger acquaintance in April of 2021. The 14 year-old n*gger-idiot -- who was playing around with a firearm -- has been charged with felonious assault and reckless homicide. The perp turned himself in, but managed to first dispose of the weapon.

Michael Farmer: In late April of 2021, this unsuspecting 25 year-old white man and his dog were run over in Sandy Springs, Georgia by a speeding vehicle driven by a drunken n*gger-savage who was fleeing an EARLIER *hit-and-run incident* at a high rate of speed.

Michael Farmer and Ugly Niggess Who Killed Him

Linda Stoltzfoos: In April of 2021, this 18 year-old Amish teenager was abducted by a rat-n*gger on her way home from church in Lancaster, Pennsylvania and then raped, strangled, suffocated and stabbed in the neck. 16 months before this black orangutan murdered Linda Stoltzfoos, he was released from prison after serving 12 years for a number of armed robberies in 2006.

At the end of the film *Witness* -- starring Harrison Ford and Kelly McGillis -- Harrison Ford is warned by one of the Amish Elders to "*be careful out there among them English.*" The Amish would be far better served to warn their women to "*be careful out there among them niggers,*" and adequately arm themselves with one of them "*guns-of-the-hand.*"

The previous incidents should be clear and compelling evidence that whites must get as far away from n*ggers as income and geography permit. Leave the n*ggers to gun each other down for no reason at all, but do NOT allow yourself or your family to become their victims. Let the sad lesson of these unsuspecting murder victims be your motivation.
