

Fauci: The *VERY* Model

(Apologies to Gilbert & Sullivan)

by Earl P. Holt III

I am the very model of a modern U.S. bureaucrat,
surrounded by my comrades, every one of whom's a sewer-rat;
I'm a font of information on matters of our public health,
and somehow also managed to accumulate a lot of wealth.

Chorus: **ACCUMULATE A LOT OF WEALTH !**

I'm quite intimate with *Wuhan's Institute of Virology*,
But don't expect to hear from me a personal apology;
Though funding for its *gain-of-function* research even came from me,
Enhancing COVID's virulence and its transmissibility.

Chorus: **ENHANCED TRANSMISSIBILITY !**

About the *China Virus*, I am teeming with a lot of news,
Though my pontifications almost always proved to be obtuse;
I've reversed myself many times on mask advisability,
And my multi-billion dollar vax has suspect utility.

Chorus: **VAX HAS SUSPECT UTILITY !**

I never shy away from any cameras or microphones,
Unless I'm asked about the therapies the NIH disowns;
Like *HCQ* and *Ivermectin*, both of which have proved to be
the most effective COVID therapy that we will ever see.

Chorus: **THE MOST EFFECTIVE WE WILL SEE !**

I'm not ashamed to say that I'm a friend of Pharmaceuticals,
I'm not obscure or hidden among bureaucratic cubicles;
Big Pharma is my closest friend and knows exactly where I'll be,
If it should need a Board-Member or wave a fat consultancy.

Chorus: ***OR WAVE A FAT CONSULTANCY !***
