

Lies, Liars & Inflation

Supposedly, America is experiencing an annual inflation rate of 6.8%, with skyrocketing costs of real estate, lumber, food and petroleum products. This prompted a *real* journalist to ask the **Organized Crime Figure in the White House** when should Americans expect to see rising prices abate.

In reply, *Don Giuseppe*, head of the **Biden Family Crime Syndicate** babbled something incoherent about COVID being the culprit, and that he was ordering the federal government to investigate the poultry and beef industries for "anti-trust violations." **That's just how they did it in the old Soviet Union!**

This is an example of the **New Communist Party of the USA** (NCPUSA) behaving exactly like its predecessors and mentors in the USSR. It's also a vindication of my claim that lying, prevarication, mendacity and dissembling constitute the second most important **ELECTORAL STRATEGY** of the NCPUSA, right behind **VOTER FRAUD**.

For 74 years, whenever their most recent *Five Year Plan* fell on its ass -- as they always did -- Soviet *Communist Party* officials summoned their commissars and gave them marching orders to get out there and blame whatever crisis happened to exist on "**bad weather**," or capitalist currency manipulation, or any excuse other than their unworkable Marxist system.

The accelerating costs of many domestically-produced goods are a consequence of the "**Bidenflation**" that the administration and its NCPUSA have generated by **SPENDING LIKE N*GGERS WITH A STOLEN CREDIT CARD**. After less than a year, they appear intent on adding somewhere around \$6 TRILLION to our *National Debt*, even in the face

of rising interest rates that will make interest payments on the National Debt nearly impossible to "service."

Actually, Bidenflation is more than twice the official level quoted by the Bureau of Labor Statistic (BLS.) Traditionally, the BLS monitors changes in the prices of a "basket" of typical consumer goods, such as a gallon of milk, a pair of jeans, a gallon of gasoline, etc. Now, to hide the TRUE rate of inflation, more *subjective* measures are employed. If the BLS still used the traditional method, the *Consumer Price Index* would be about 16% and higher than at any time during the Carter Administration.

Biden and members of the NCPUSA will always reflexively lie, even if the truth would save their souls. They get away with it because the Jews' Media will never call them on any lie, just as **PRAVDA** and **TASS** ran interference for the Communist Party in the old Soviet Union.
