

Race As a Weapon

by Earl P. Holt III

In the wake of the stolen Presidential Election of 2020, it became exceedingly obvious to any honest person that the vast majority of voter fraud occurred in **BLUE** counties with unusually large black populations. It was equally clear that much of the on-site fraud was perpetrated by blacks, as well.

For the DNC to use blacks to execute their voter fraud schemes was a clever idea: crime statistics demonstrate that most blacks are about as amoral as any "demographic" could possibly be, and most blacks are only too willing to steal anything that isn't bolted down and doesn't require much effort.

The DNC clearly recognized long ago that gutless Republicans have been intimidated into ignoring "*Democrat*" voter fraud for decades, owing to their irrational fear of being called "*racist*" by "*Democrats*" and the Jews' Media. Thus, they have routinely ignored "*Democrat*" voter fraud and have done absolutely nothing to mitigate it in 50 years.

The phenomenon of "*Democrats*" using race as a weapon to disarm their political rivals prompted me to consider other contexts in which race has been used as a weapon to generate traitorous public policies that benefit blacks while disadvantaging everyone else. Not surprisingly, this tactic goes on in a variety of contexts.

For example, the **overwhelmingly black inmate populations** in county jails and state prisons has inspired many "*Democrat*" officials to oppose cash bail and even campaign against the very practice of incarcerating criminals. Blacks commit more than two-thirds of all violent crimes in the

U.S. each year -- and more than 90% of all murders -- which **SHOULD** explain those racial disparities in the inmate populations of most county jails and state prisons. **Here, the demonstrable criminality of blacks is, itself, used as an argument to justify granting them greater leniency in sentencing, probation or parole!**

Likewise, the usual suspects reflexively litigate against states **requiring photo IDs to vote**. The DNC, its race-hustlers and its professional liars argue that blacks have greater difficulty obtaining photo IDs from state or local governments than whites do, and that such stringent requirements unconstitutionally discourage black voter turnout. **Yet, blacks have no such difficulty producing photo IDs to purchase liquor or obtain welfare benefits. Moreover, most blacks seem able to vote early and often, since voter turnout in predominately black areas always exceeds the number of legal-age voters by 20% to 25%.**

Moreover, profound **disparities in academic achievement** exist between whites and blacks, which are shamelessly cited as proof of "*systemic and institutionalized racism*." This prompts calls for billions more in remedial efforts that only continue to widen the academic achievement gap. **Here, black disinterest in education, lower IQs and lack of aptitude for academics has been allowed to become a rationale for endless remedial programs and throwing enormous amounts of additional funding at terrible black-run schools in BLUE cities.**

The same phenomenon occurs with regard to income. The profound 15-point average IQ disparity favoring whites over blacks is the primary reason for **greater wealth among whites**. Yet, race-hustlers attribute economic disparities to "*systemic racism*." This argument is used to justify endless welfare benefits, "*entitlements*," race-quotas and "reparations" for blacks. **Yet, income disparities between whites and blacks are inevitable so long as the vast majority of blacks choose welfare and crime as careers, and sleep through 12 years of free public**

schooling. Most also tend to spend their wealth childishly, rather than save or invest it. "*Bling*" or expensive rims are much preferred to savings or intelligent investing.

Similarly, the **greater susceptibility of blacks to the COVID-19 virus** was cited by race-hustlers and those promoting *nationalized healthcare* as proof that blacks receive inadequate health care. It was also used as an excuse to mandate forced immunizations in many **BLUE** areas. Of course, anyone with a brain knows that **blacks are more susceptible to COVID-19 because they are more likely to be over-weight, have a greater incidence of diabetes and hypertension, they smoke more, they drink more, they use drugs more, and they are more cavalier about hygiene.**

Finally, because blacks breed so irresponsibly, their **illegitimacy rate** in the U.S. is more than two-thirds of all live, black births and over 90% in large, urban areas. In fact, blacks have become synonymous with illegitimacy and bastardy in America. Single-parent homes with unwed mothers and an absent father is a significant reason black juveniles make such poor life choices and begin lives of crime. Yet, there's an entire movement consisting of race-hustlers and apologists for black failure who routinely denounce whites and Asians for this "*system of oppression.*"

These charlatans refer to married, two-parent homes as examples of "*family privilege*" and "*white supremacy*," which they want to dismantle in the name of "*racial justice.*" THERE IS EVEN A PROVISION IN BIDEN'S ABSURDLY-NAMED '*Build Back Better*' legislation TO IMPOSE A "*MARRIAGE TAX*" IN ORDER TO PENALIZE MARRIED COUPLES AND DISCOURAGE MARRIAGE.

Once again, it is the demonstrable failings of blacks that are cited by race-hustlers and their enablers as the rationale for granting blacks special privileges or for disadvantaging others. These are predicated on

the failure of most blacks to observe conventional standards of conduct and behavior that have been demanded by civilized societies throughout recorded history. This inevitably encourages declining standards of behavior among an angry and envious minority, much too prone to violence and other societal malignancies.
