Why don't public officials in **BLUE** states and counties recognize that America doesn't have a "**GUN PROBLEM**," we have a "**N*GGERS-WITH-GUNS-PROBLEM**"?

How come every liar in the Jews' Media was outraged that Kyle Rittenhouse **LEGALLY** crossing the border between Illinois and Wisconsin, but have ignored the **TWO MILLION ILLEGAL ALIENS** who have snuck across our southern border so far this year?

If America is so beset with "*systemic white racism*," why are all those Haitians and other "*persons of color*" risking life and limb to immigrate here?

If the left is so willing to accept the claim of feminists that it's "My Body, My Choice," why do they reject that same argument from those opposed to COVID-19 vaccinations?

America's blacks have been synonymous with violent crime as long as crime statistics have been compiled: so why doesn't the Jews' Media recognize the irony of treating them as our "*moral conscience*"?

If the Biden Administration can pressure every American to accept the dubious COVID-19 vaccine, why couldn't it force-vaccinate the two million illegal aliens it's welcomed across our southern border in 2021?

Since the technology companies have devised endless applications for *Artificial Intelligence*, why can't they apply it where it's REALLY needed, in the Oval Office?

Sikhs in the Marine Corps, Army and Air Force may now wear beards and their traditional turbans: but you can bet your keister that any service-member in uniform wearing a **MAGA** hat would rot in the brig until his *Court Martial* came through from his queer or transgendered Company Commander.

If milk is a common symbol for white supremacy -- as PETA alleges -- then why isn't chocolate milk a symbol for miscegenation?

If our demented *Interloper-in-Chief* can make a FOUR STAR ADMIRAL out of a transgendered circus freak, does that mean "She" will eventually be eligible for the *Congressional Medal of Honor*?

How come Attorney General Merrick Garland can dispatch FBI Agents to harass and investigate parents outraged by *Critical Race Theory*, but the FBI was too busy to look at obvious evidence of massive and systemic voter fraud last November?

When American citizens are forced to flee their own neighborhoods once they are overwhelmed by *Third World* immigrants, do they then qualify as "*refugees*" in their own country? (*Idea borrowed from Jared Taylor.*)

Why do those who pay usurious interest rates on their credit cards not realize that it was Joe Biden -- called "*the Senator from MBNA*" by Senate colleagues -- who got the credit card companies exempted from usury laws?
