

Decentralization & America's Future

by Earl P. Holt III

The belated awakening of the American Electorate to the true agenda of the ***New Communist Party of the USA*** (NCPUSA) -- wrongly called the "Democrat" Party -- portends a renewal of liberty in America. **Cultivating and preserving it will require a great many reforms, not least of which is a DECENTRALIZATION of policy-making that's more compatible with federalism and the Ninth and Tenth Amendments.**

For example, the very bright and fearless Christina Bobb at ***One America News Network*** (OANN) -- who meticulously covered the Maricopa County, Arizona audit of the 2020 Election -- has pointed out the critical importance of **COUNTING VOTES AT THE LOCAL LEVEL**, a significant form of decentralization. The current practice is to transport ballots to a *central tabulating facility* where the NCPUSA's voter fraud machine has been previously installed, making it much easier to commit, as Detroit, Milwaukee, Minneapolis, Atlanta and Maricopa County amply demonstrated. *On-site* vote fraud in those cities, alone, was more than enough to steal the presidency.

One benefit resulting from local ballot tabulation is that it would greatly complicate the NCPUSA's efforts to engage in *systemic* vote fraud by isolating that fraud, and effectively "*quarantining*" it at whatever locations it originates. This reform would also make it much easier to investigate and audit allegations and evidence of vote fraud occurring at the smaller and more manageable Ward or Precinct level. **It simplifies undertaking the formidable task of auditing the immense number of ballots at a central tabulating facility.** (For example, Maricopa County's audit involved over 2 million votes and took several months.)

Another obvious example of the need for decentralization is evident in the area of **PUBLIC SCHOOL POLICY AND CURRICULA**. Parents have finally come to the realization that most public school systems are not interested in their opinions, and are interested only in adopting the crazy and perverse ideas cooked up by charlatans at the **U.S. Department of Education**. These are then implemented by the traitorous and misnamed **National Education Association**, and include *Critical Race Theory*, *gender identity counseling*, *New Math*, *"ethno-math,"* *White Skin Privilege*, *No Child Left Behind*, and many other crazy and subversive theories and practices that are destroying public education. The elementary schools in Moline, Illinois even sponsor an after-school "**Satan Club**." Chloroforming the **Department of Education** is a necessary first step toward decentralizing public education in America.

The father of a teenage rape victim denounced Virginia's *Loudon County School Board* for its policy permitting male "*transgender*s" to use the **Girl's Restrooms**. That policy enabled a n*gger to take advantage of the policy and rape the man's 15 year-old white daughter at *Stone Bridge School*. School officials lied about the incident to police and to the girl's parents by minimizing the incident and characterizing it as "**an altercation in a restroom**." The justifiably furious father of the victim was arrested for denouncing school officials at their next school board meeting, and is being prosecuted for it by Loudon County's Soros-elected D.A. **Parents criticizing school boards have also found themselves harassed and investigated by the FBI as "terrorists" at the request of Miguel Cardona, Biden's Secretary of Education.**

Clearly, our uniform and *centralized* approach to **PUBLIC HEALTH POLICY** has been disastrous, as the U.S. response to the COVID-19 "*pandemic*" amply demonstrates. **Uniform policies imposed by Washington, DC bureaucrats are too easily hijacked and misused by corrupt and dishonorable politicians.** This public health emergency has been used as a pretext for "*lockdowns*" by "*Democrat*" politicians in **BLUE** cities and

states, who seized on the COVID pandemic as an opportunity to destroy the livelihoods of small business owners who are their primary political opposition. Joe Biden's "*universal*" vaccine mandate has even become a necessary prerequisite for keeping one's job in the military as well as the public and private sectors.

A singular and centralized public health policy also enables powerful lobbyists to unduly influence public health officials, such as the pharmaceutical industry's cozy relationship with Anthony Fauci at the NIAID. It was Fauci who rejected the readily available, inexpensive and proven therapies for treating COVID-19 -- like *HCQ* and *Ivermectin* -- and wrongly advised President Trump to throw billions of dollars at what has proved to be an ineffective vaccine with unacceptably dangerous side-effects. Yet, the COVID vaccine **HAS** been extremely lucrative for the pharmaceuticals, despite being ineffective and dangerous. **RED** states rejecting vaccine mandates have consistently shown lower rates of infection and much quicker acquisition of "*herd immunity*" from the COVID-19 virus and its variants than **BLUE** states with vaccine mandates.

In the hands of corrupt and incompetent officials, **U.S. ENERGY POLICY** made in Washington has been equally disastrous for most Americans. In his first official act after stealing the presidency, the godfather of the *Biden Family Crime Syndicate* arbitrarily, capriciously and unilaterally cancelled the *Keystone XL Pipeline* and prohibited oil and gas exploration on public lands. His Executive Orders have also forced the closing of several natural gas pipelines that serve to provide heat for many homes in the Midwest and Northeast. These policies have probably been adopted to encourage America's conversion to so-called "*soft*" energy sources such as electric vehicles.

As a result, the cost of petroleum products have skyrocketed and America's energy self-sufficiency has ground to a halt. Although the U.S. had previously become a net energy *exporter* under Trump, it has once

again become a crude oil importer from unstable areas such as the Middle East and Latin America. Biden's energy policies have also raised the price of heating oil, propane and natural gas for those dependent on these sources of energy to heat their homes in the winter. **The Biden Administration's energy policy consists of adopting the most insane, irresponsible, and destructive policies that the party's so-called "environmentalists" can concoct.** (Most wouldn't know a BTU from their BUTT!)

It's an outrage for the federal government to establish "**GENDER IDENTITY POLICIES**" which the rest of America is expected to acknowledge and observe. **Activist federal judges are *champing at the bit* to expand the definition of "gender" and create outrageous new rights for a seemingly endless variety of queer trash.** Unprincipled federal judges appointed by Obama or Clinton would love to expand the meaning of "sex" in the **1964 Civil Rights Act** to include every disgusting manifestation of perversion. That would definitely include "*sexual preference*" and "*gender identification*" to appease the kinds of circus freaks who sued Christian-owned bakeries to force them to bake wedding cakes for homosexual "*marriages*."

Many states and localities are afraid to defy these new definitions of "gender" for fear of ending up in federal court with Merrick Garland's **Department of Injustice** as their opponent. The fraudulent and ludicrous nature of these new policies involving gender have been exposed in many ways, especially where biologically-male "*transgenders*" are permitted to compete in "*women's*" athletic events, where they often dominate their biologically-female opponents. This does a grave disservice to women and girls who have trained most of their lives to compete in their sports. It is the fear of civil litigation or criminal charges that silence those who might otherwise oppose non-traditional definitions of gender.

Article 1, Section 4 of the Constitution authorizes individual states to set the "*Times, Places and Manner of Holding Elections...*" Yet, the NCPUSA intends to make permanent and legal, the very techniques it used to steal the 2020 Presidential Election by preempting the traditional authority of state legislators to **SET REQUIREMENTS FOR VOTING**. Their fraudulently labeled legislation is called the *For the People Act*, which was passed by the NCPUSA-controlled House in March of 2021. It has now been nig-named the "*John Lewis Voting Rights Act*," and is an example of the dangers and treachery that result from centralizing election requirements from Washington that usurp state authority.

If enacted, this legislation would make the massive voter fraud and endless confusion following the 2020 Presidential Election a permanent feature of U.S. elections. It would also ensure that U.S. elections mirror those in "*Banana Republics*" or sub-Saharan Africa: it permits **same-day voter registration**, so registrants can't be properly vetted; it expands the practice of **mass-mail Absentee Ballots** that caused so much confusion and delay in 2020; it prohibits states from requiring any **identification other than a signature**; it allows felons to vote before completing their sentences; it specifically permits "**vote harvesting**"; it **prohibits states from sharing data bases** with other states, so dead "*Democrats*" can vote from multiple locales; and it permits **on-line voter registration**, so no paper trail exists for verification.

The Ninth and Tenth Amendments exist for a reason: The greatest fear of the Framers was that a centralized government would become too powerful and tyrannical. To a man, they would be aghast at the extent to which Washington has aggrandized power and authority beyond even their wildest and most cynical imaginings. They would also be ashamed at us for allowing this situation to take place, an inexcusable abdication of our civic responsibilities.
