

## **"Root-Causes" of Crime**

Recently, two prominent but demonstrably incompetent "*Democrat*" public officials have recommended that we study "***the root-causes of crime***" in order to help combat violent crime that is literally spiraling out of control in our largest cities run by nigras.

Those two officials are St. Louis, Missouri's Congresswoman **Cori Bush** (D-Zimbabwe,) and **Kathy Hochul**, the hapless and clueless Governor of Nueva York.

**Like most "*Democrats*," they have advocated a diversionary tactic to avoid the obvious by calling for a panel to appoint a committee to establish a commission to study those "*root-causes of crime*."**

I can save them a lot of time and expense by reciting the 10 root-causes of crime off the top of my head, and will do so at no cost. **Here they are:**

1. n\*ggers
2. early parole
3. restrictive gun control laws
4. light sentences
5. n\*ggers
6. defunding police
7. low bond pre-trial release
8. n\*ggers
9. incompetent black officials
10. Marxist white enablers

**You are welcome.**
