

Intentional Subversion

by Earl P. Holt III

If Josef Stalin, Vladimir Lenin or Vladimir Putin had dictated America's foreign and domestic policy for the last 50 years, they could not have done a better job of subverting America than the ***New Communist Party of the USA*** -- wrongly called the "*Democrat*" Party -- has done without their help. In many instances, the NCPUSA's treason remains completely unknown to most Americans, but each instance has had profound consequences for our national security.

In the late 1970s, the Carter Administration approved the sale of *state-of-the-art* ***Bryant Centalign-B*** precision ball-bearing grinders to the Soviet Union. These possessed tolerances of 26 *ten-millionths* of an inch (.0000026 inches) and were used by the USSR to enhance the accuracy of the warheads on their *Inter-Continental Ballistic Missiles* (ICBMs) to the point that they became as accurate as our own. Prior to Carter, the Soviets had more ICBMs with more warheads, but our warheads were more accurate. This was no longer the case after Carter's Administration okayed the sale of the ***Centalign-B*** to the Soviets, and shifted the "*balance of terror*."

Likewise, Jimmy Carter and a "*Democrat*" Senate surrendered the ***Panama Canal Zone*** to Panama in 1979, even though America built it. Arguably, the *Canal Zone* has greater strategic significance than any other geographic locale in the Western Hemisphere, since two-thirds of all shipping to or from the U.S. pass through its locks each day. China now effectively controls the *Canal Zone* after having made itself indispensable to Panama through its "*Belt and Road Initiative*" that funds and constructs infrastructure projects in Third World nations. The *Canal Zone* has become the strategic "*flashpoint*" that opponents of the *Panama Canal Treaty* had earlier predicted in the 1970s.

After the **Soviet invasion of Afghanistan** in 1979, they murdered its central government and installed a puppet regime friendly to Moscow. The timid and rudderless Carter Administration did nothing, signaling its weakness much like the Biden Administration has recently done in response to the Russian invasion of the Ukraine in 2022. (Somehow, Russia's nuclear arsenal effectively deterred the Carter, Obama and Biden administrations from engaging Russia in any manner, but *our own* nuclear arsenal never seems to deter Russia.) The Soviets occupied Afghanistan for 10 years, and were eventually driven out only because the Reagan Administration armed Afghanistan's goat-herders with *state-of-the-art Stinger* surface-to-air-missiles (SAMs,) and *Javelin* anti-tank weapons that generated enormous and unsustainable losses for the USSR.

From the very beginning of his administration, Jimmy Carter feverishly sought to pass the second *Strategic Arms Limitation Treaty* or **SALT 2**. Its adoption was vigorously pursued, even though the Soviets had violated every provision of every treaty it previously entered into in the 20th Century. The **SALT 1** Treaty was an obvious example: the USSR installed ICBM radar systems, it upgraded "*light*" missiles into "*heavy*" missiles, and it added additional warheads to its ICBMs, all violations of **SALT 1**. In fact, the USSR used our observance of the self-limiting provisions of **SALT 1** to gain advantages over the U.S. All this did was prompt the Carter Administration to redouble its efforts to pass **SALT 2** by lying about and denying any Soviet violations of **SALT 1**.

The Clinton Administration was limited by Republican majorities in both Houses of Congress, but still managed to participate in the NCPUSA's tradition of subverting American national security. In 1996, Bill Clinton personally approved the sale of *Loral Space Corporation's* state-of-the-art **missile guidance systems** to communist China. Because of its national security implications, Clinton had to overrule his own State Department, Defense Department and intelligence community to approve the sale,

but it was worth it. Clinton's reward came in the form of a **BRIBE** from **Loral's** founder and Chairman, Bernard Swartz, and it consisted of a \$6 Million contribution to the *Democrat National Committee* to assist in Clinton's 1996 reelection.

Obama turned a blind eye to corruption and treason in his administration, and probably even helped orchestrate some of it himself. As Obama's Secretary of State, Hillary Clinton sold 20% of America's precious Uranium reserves to Russia -- in the so-called "**Uranium One Deal**" -- in return for tens of millions of dollars in bribes from Russian Oligarchs to the **Clinton Family Crime Foundation**. That Uranium is no doubt found in some of those Russian nuclear weapons that Vladimir Putin recently threatened us with, to deter us from engaging his army after it invaded and devastated the Ukraine.

Obama entered into the "**Iran Deal**," effectively rewarding Iran for sponsoring international terrorism over many decades. It transferred to Iran more than \$150 Billion in frozen Iranian assets and included a "*gratuity*" in the form of \$2 Billion in U.S. currency. In return, the Obama regime received vague and unverifiable promises from Iran not to pursue its nuclear weapons program, but Iran took the money and continued to pursue it. Its true purpose was to grant America's first black, Moslem and communist President an illusory foreign policy "*victory*" to justify his ludicrous receipt of the *Nobel Peace Prize*. The **Iran Deal** will nonetheless continue to cost innocent lives and generate conflict in the Middle East for decades to come.

Likewise, under the Obama Administration, Hunter Biden and his partners at **Rosemont Seneca Partners** received an unprecedented windfall of \$1.5 Billion from communist China to invest. In return for its generous investment in Hunter Biden's firm, communist China's government -- through its **Aviation Industry Corporation of China** -- was permitted to purchase Michigan's **Henniges Automotive**, a producer of

strategic technologies that reduce engine vibrations to enhance their "*stealth*" features. Despite the fact that it involved "*stealth*" technology with military applications -- sold to our mortal enemies -- the sale was personally approved by Barack Hussein Obama.

The Obama Administration also showed its loyalty to Russia when Obama **refused to assist the Ukraine** after Russia invaded it for the *first* time back in 2014. Instead of sending weapons or deploying forces, Obama sent them blankets.

As traitorous and subversive as prior "*Democrat*" administrations may have been, none can rival the Biden Administration for pure treachery. Under Biden, the "*Democrat*" Party's domination by communists and crooks has been complete and irreversible. As mentioned earlier, Biden has damaged domestic energy production and obliterated **America's energy independence**, while simultaneously approving Russia's gas pipelines that create European dependence on Russia and weaken NATO.

The day he took office, Joe Biden cancelled the **Keystone XL Pipeline** from Canada and forbade oil and gas exploration and "*fracking*" on federal lands. Yet, he later gave U.S. **APPROVAL** to Russia's latest **Nord Stream Pipeline** that it is building to supply Western Europe with natural gas. Biden's arbitrary and capricious actions have doubled the worldwide price of crude oil in only one year, creating a windfall for Russia's oil and gas exports and dramatically enriching its coffers. In doing so, Biden has helped to fund Russian expansionism with its brutal and unprovoked invasion and devastation of the Ukraine in 2022.

Biden demonstrated his weakness and cowardice with his disorderly and humiliating 2021 **retreat from Afghanistan**, leaving \$85 Billion worth of state-of-the-art military equipment and hundreds of American citizens to the bloodthirsty savages of the Taliban and Al Qaida. With equal

treachery, he has opened America's southern border and welcomed two million **illegal aliens** into America from different 150 nations without any vetting of their prior criminal histories or their motivations for illegally entering the U.S.

Finally, Biden has waffled and vacillated and "*led from behind*" in responding to Russia's unprovoked and brutal **invasion of the Ukraine**. Initially, he relied exclusively on empty rhetoric involving economic sanctions when he should have sent **Stinger** and **Javelin** defensive weapon systems to the Ukraine before Russia's invasion made them difficult to deliver. He also practically invited Russia to invade the Ukraine's Eastern Provinces when he clumsily attempted to distinguish between a full-fledged invasion and a "*minor incursion*," implying that the latter was somehow acceptable to the U.S. and NATO. Worse yet, those economic sanctions were all form over substance because they intentionally excluded the targeting of Russia's oil and gas revenues using the **Swift System** of international financial transactions.

As I've argued many times, the NCPUSA consists of two "*wings*," its **organized crime wing** and its **communist wing**. The NCPUSA's organized crime wing is motivated by bribery, while its communist wing is motivated primarily by ideological sympathy with all other communists. Both wings have been equally willing to assist America's mortal enemies, particularly China, Iran, the Soviet Union, and the latter's recent reincarnation as the **NEW Soviet Union** under Vladimir Putin.

It's quite clear that the NCPUSA has much more affinity for totalitarian Marxists than for conservatives, Republicans or even moderate Democrats like Joe Manchin (D-WV) and Kyrstin Sinema (D-AZ.). In any case, America and the West have routinely been the victims of its treachery.
