

## ***White Man Money***

In March of 2022, Birmingham, Alabama began a one-year pilot program offering a ***guaranteed monthly income*** of \$375 to benefit 110 single mothers residing there. This "*Embrace Mothers*" program is being offered to those whose names are drawn randomly.

It is sponsored in cooperation with ***Mayors for a Guaranteed Income***, a rogues gallery of the same black bastards whose incompetence has already destroyed most large, urban areas in America. Their cities are defined by violent crime, declining services, mismanagement, embezzlement, voter fraud, nepotism and all the other ills associated with black control of anything.

In the words of its black mayor, Randall L. Woodfin, the program "***demonstrates the strong desire of Birmingham's single mothers to do all they can to support their families and seek out opportunities for greater economic stability.***"

Since Birmingham is 72% black -- and its black residents are more than 90% illegitimate -- approximately 19,000 single mothers began the application process to "***git me sum o' dat free white man money.***" Not surprisingly, only 8,000 of the original 19,000 applicants successfully managed to complete the application process.

Paying n\*ggers to sit on their asses and watch TV is a fairly recent enthusiasm promoted by "*Democrats.*" It's one variation of the "*Universal Basic Income*" scheme advocated by such learned economists as Senator Bernie Sanders (D-Havana,) and Congresswomen Alexandria Ocasio-Cortez (D-Puerto Rico) and Ilhan Omar (D-Somalia.)

*Guaranteed monthly income* programs have been tried in several poorly-managed cities in California -- such as Stockton and Oakland -- as well as some dicey cities in Massachusetts and the usual suspects like Chicago, Atlanta, Jackson, Newark, St. Paul and a few other places that most whites should avoid like the plague.

**As anyone with a three-digit IQ recognizes, these programs tend to give alcoholics and drug-addicts greater discretionary income, with fairly predictable results. The real beneficiaries will be the drug-dealers and liquor store owners who end up with most of that free money.**

Other beneficiaries will be the *baby-daddies* who sired illegitimate offspring and are profoundly in arrears on their court-ordered child support. As I overheard a black male driver say to his female passenger in an adjacent car, while sitting at a traffic light one night in St. Louis:

***"BITCH GIMME SUMMA DAT CHECK -- DAT'S MY BABY TOO!"***
