The **NEW YORK TIMES** has finally discovered that the contents of Hunter Biden's laptop computers are genuine. This means the NYT now knows what every conservative Republican in America has known for two full years. Do its readers really consider the NYT to be a *source* of news?

What difference does it make that many in the Biden Administration attended the very best schools when they are the dumbest and most prolific liars around?

**It's ironic that many in Washington initially rejected military assistance to the Ukraine -- following its invasion by Russia -- because the Ukraine was alleged to be "*corrupt*." Yet, there are few governments on Earth more corrupt than the one currently occupying Washington, D.C.**

Does the Secret Service recognize it can safely lay-off the White House security detail? When most world leaders won't even take a call from Biden, it's highly unlikely that anyone would bother to take a shot at him, either. (Especially with Commie Harris in the wings.)

Latinos, Injuns and blacks complain that they were "*under-counted*" in the 2020 Census: could this be because a lot of "*phantom*" votes remain from the 2020 Election, that can't be justified on the basis of their true **POPULATIONS** within their counties?

**How is it possible that the federal government can't locate illegal aliens to *deport* them, but it can easily locate them in order to hand them endless free stuff?**

Former black *Mimi Dolphin* Head Coach Brian Flores has sued the NFL for race discrimination because the vast majority of NFL head coaches are

white. Why is white domination of head coaching jobs evidence of "systemic racism," but black domination of the highly-paid "speed positions" -- running backs, ends and defensive backs -- is **NOT** racism?

As Speaker of the House, Paul Ryan rejected every one of more than 30 requests for subpoenas by Chairman Devin Nunes of the *House Select Intelligence Committee* to investigate the very people now under investigation by Special Counsel John Durham. Why has **Fox News** allowed this traitorous bastard to remain on its Board of Directors?

**Why in the world did the U.S. take 20 years, \$1.5 Trillion, and four presidents to replace the Taliban in Afghanistan with.....the Taliban?**

How can the Jews' Media rationalize its promotion of the false charge of "Russia collusion" against President Trump for three years, in contrast to the silence that now greets Special Counsel John Durham's exposure of Hillary Clinton's personal spy network that hacked into Internet traffic to and from Trump's Oval Office?

How are we going to produce all the batteries needed to transition away from fossil fuels to electric vehicles, when the rare minerals needed for those batteries -- cobalt, zinc and lithium -- are found in unfriendly nations like Russia?

**Why is it that our nuclear arsenal doesn't seem to deter Vladimir Putin from invading Russia's neighbors, but Putin's nuclear arsenal always seems to deter our "Democrats" from responding decisively?**
