

# Racial Anonymity

by Earl P. Holt III

Some baboons used **AirBNB** to rent a private residence in Pittsburgh and then throw a party that was attended by approximately 200 guests, most of whom were underaged. As often happens at these events, a gun battle erupted in which nearly 100 shots were fired, killing two 17 year-old teenagers and wounding 10 more. Five more guests were injured in the process of jumping out of second-story windows to escape the gun battle raging inside.

Anyone with a functioning brain should instinctively be able to identify the race of those involved in such a spectacle, where 100 rounds were fired and only two individuals were killed. It's like those drive-by shootings where everyone in the vicinity is killed except the intended target: from details like that, you immediately know that n\*ggers were the culprits. Especially where the attractive home of some naive and unsuspecting family is rented and then laid to waste by 200 savages who turn it into a battleground.

Yet, if you looked at Jews' Media reports of the incident, you would not be able to discern the race of those involved in this debacle. That's because the misnamed **Society of Professional Journalists** adopted a **FORMAL POLICY** at its national conference in 2009 excluding race from news reports of violent crimes. Race must only be indicated when it is "*relevant*" or an "*integral part*" of the story, and therefore essential to the understanding of the story by readers or viewers. To mention race is to "*perpetuate stereotypes*" *blah, blah, blah*.

**Because of the enormous disparity between black and white violent crime rates, it has become increasingly necessary for the Jews' Media and their Marxist allies to intentionally obscure the race of violent**

black offenders in news accounts. Even where the race of a perpetrator might be of some value in identifying a suspect “*at large*,” the perpetrator’s race is scrupulously censored.

However, the motives of the Jews' Media are not difficult to ascertain, whether they remain in the form of an unspoken conspiracy, or they are formally acknowledged, as the misnamed “*Society of Professional Journalists*” has obligingly done.

For more than 50 years, whites have been indoctrinated with the “*egalitarian*” falsehood that “*we are all the same, except for skin color*,” and that race is a “*false*” construct. This propaganda has been aggressively promoted by Marxists in the Jews' Media, the public schools, the so-called “*Democrat*” Party, and the entertainment industry.

**If the Jews' Media were to accurately report the massively disproportionate nature of black violent crime, it would alert whites to the fact that we are most clearly NOT all the same, and that blacks are significantly more violent and dangerous than all other races. Any such awareness on the part of whites would work to undermine the *egalitarian* fantasies of Marxists everywhere.**

Instead of honestly owning up to the reality of black violent crime, Marxists have engaged in numerous diversionary tactics to confuse the public about its true nature. Among these is the enactment of so-called “*Hate Crime*” laws, the promotion of a laughable “*White Skin Privilege*” narrative, and endless “*sociological*” excuses based on poverty or racism for the endless volume of violent crimes that blacks commit.

**While FBI statistics indicate that blacks are responsible for approximately 60% of all homicides, these statistics significantly underestimate the true black murder rate: That’s because the category “*Race of the Assailant*” cannot be ascertained by law enforcement in about one-third of all murders, and most of these murders are never solved.**

**At any given time, there are 100,000 unsolved murders in the U.S., the vast majority of which were committed by n\*ggers.**

Most unsolved murders are black-on-black, gang-related, and take place at night and in the "*hood*," where there are few witnesses and very little cooperation with police.

Violent crime thrives in the *hood*, primarily because black ghettos have spawned a sub-culture that tolerates crime and glamorizes violence. One need look no farther than their music for proof of this fact.

Violent crime also thrives because Marxists in the Jews' Media and their equally dishonest colleagues in academia shun an accurate and realistic appraisal of the true "***color of crime***" in the U.S., and desperately work to hide it.
