

New "*Cleaning Lady*"

The White House has hired a new cleaning *lady*. She is a proud lesbian, a niggress and probably a communist, but her most important qualification for the job is the fact that -- like her predecessor -- she is a **pathological liar**.

Her name is Karine Jean-Pierre, her parents were Haitian and she was born in Martinique. She may be even worse than most of the flotsam that drifts here from the Caribbean. She apparently sees her job as helping to recreate in America, the very slums she abandoned in her native land.

I call her the new "*cleaning lady*," because the real job of the White House Press Secretary has regressed into cleaning up the messes and verbal spills of our incontinent, senile and pathological liar of a "*President*" who is wrongly occupying the White House.

Half the time he can't even deliver his prepared script, so the job of Press Secretary usually involves cleaning up after him like street-sweepers used to clean city streets of horse-droppings back in the day. He also soiled himself during his audience with the Pope, so the analogy is pretty much on-target.

The new cleaning lady replaces a likely communist, Jewess and pathological liar who has moved on to MS-NBC, where her single, defining skill will serve her well and never atrophy.

Martinique is among the poorest of Caribbean nations, so one of its *emigres* was a natural fit for a position in the Biden Administration, which is laboring to make America equally impoverished. Thus far, it has experienced great success in this endeavor.

Like a lot of niggresses, the new cleaning lady won't do windows. She **WILL** help accelerate America's decline, however, because that's what n*ggers do.

B.T. Washington,
Heaven
