

Crazy *AND* Evil

There are a lot of neurotics in Psychiatry and Clinical Psychology, and a disproportionate number of homosexuals. Many of the latter were originally drawn to the psychoanalytic professions in hopes of discretely curing themselves through the profession's diagnostic and therapeutic techniques. The influence of homosexuals in these professions has not been beneficial to their reputation.

In 2013, these psychoanalytic professions revised their *Diagnostic and Statistical Manual* (DSM) to finally **remove homosexuality as a mental disorder**. This was an unfortunate modification of the DSM that began 40 years earlier, and was based exclusively on politics rather than science. Essentially, it was a surrender to the influence of the homosexual lobby and its political agenda. Many truly insane ideas currently in circulation are a direct result of modifying the DSM 5.

For example, it may be news to normal people, but queers, perverts, transgenders, circus freaks and feminists are busily promoting the quaint notion that boys can "*menstruate*" just like girls. Many "*woke*" school boards have even installed dispensers of female sanitary products in Boys' Bathrooms to maintain the fiction. ***Oh, and men can become pregnant, as well!*** Only the certifiably insane truly believe this, but these delusions are necessary to perpetuate the feminist hallucination that "*gender is a false construct.*"

The subject of gender has become very confusing to communists. (I refuse to call them "*progressives*," because there's nothing *progressive* about them.) As a result, one black Supreme Court nominee cannot even define what a *woman* is, although most white high school graduates can immediately tell you that a woman is an adult human possessing two "**X**" Chromosomes and no "**Y**" Chromosomes in **HER** cell nuclei.

The Supreme Court decision in *Lawrence v. Texas* that legalized sodomy in 2003 -- followed by the arbitrary "*normalization*" of homosexuals by removing them from the DSM's list of mental disorders in 2013 -- have swept through society like *Monkey-Pox* through gay bathhouses. It shaped many policies and paved the way for outrages such as secret "*gender-counseling*" of grade school kids. Likewise, it has inspired freak shows that expose little kids to "*grooming*" and desensitization by queer predators *nancying* around in women's clothing.

The *normalization* and *de-stigmatization* of homosexuality has also emboldened "*woke*" school boards to enact ridiculous policies such as the one in Loudon County, Virginia that permitted self-described "*transgenders*" to use the Girls' Restrooms in their high schools. This total surrender to ideology led to the rape and sodomization of a 15 year-old white girl by a nigger predator who wore a dress to school each day.

The traitorous cowards who capitulated to Cultural Marxism and the queer lobby -- by legalizing sodomy and "*curing*" homosexuality with the stroke of an eraser -- have granted queers much greater access to children and greater opportunities to "*groom*" them. That's exactly the goal the *North American Man/Boy Love Association (NAMBLA)* has relentlessly pursued for 44 years.

By lessening the stigma of homosexuality and legitimizing it, quislings have increased the likelihood that many unsuspecting kids will face a future consisting of sexual abuse and years of psychoanalysis.
