

Segregationist Visionaries

by Earl P. Holt III

Race-hustlers and beneficiaries of race-quotas at ***George Washington University*** have shown the usual gratitude for which their race is renowned by demanding a name-change for their university founded in 1821. They allege that America's "***history of slavery, Jim Crow, red-lining and other discriminatory policies toward African Americans has never been fully addressed or atoned for...***"

As un-American as those institutions may seem in retrospect and hundreds of years later, let's consider exactly how and why some of those institutions managed to evolve. White Southerners didn't just awaken one morning and decide to ostracize blacks: the institution of ***Jim Crow*** evolved over time as a direct result of extended contact with them. Eventually, southern whites learned to recognize most blacks as violent, witless, superstitious, childish and invariably criminal, whether race-hustlers and modern-day ***Stepford Children*** are willing to acknowledge these characteristics or not.

The demonstrable criminality of blacks is why many cities adopted "***Sundown Laws***" that forbade blacks from remaining within city limits after their curfew at sundown. Now freed of such constraints, blacks have proved to be synonymous with **violent crime** in the U.S., a category that includes rape, robbery, murder and aggravated assault. They account for over 90% of all murders committed in America despite being about 13% of the population. Likewise, blacks are 50 times as likely to commit a violent crime against a white person as the reverse, since their numbers are one-fifth the white population, but they commit 10 times as many black-on-white violent crimes as whites commit violent crimes against them. They are synonymous with property crimes, as well.

Although the Jews' Media has adopted a formal policy obscuring the race of Offenders when reporting incidents of violent crimes and murder, most involve n*ggers killing each other on the mean streets of our large, urban areas -- like Chicago, Philadelphia, DC, Atlanta, Detroit, Memphis and St. Louis -- in the middle of the night. **That's one very good reason why Southerners sought to minimize contact with blacks: they correctly recognized them as childish, under-evolved and dangerous.** It is no coincidence that Chicago's lesbian and niggres mayor has recently resorted to imposing similar curfews for youthful gang-bangers as a means of slowing the city's record-setting rates of shootings and murder.

Meanwhile, the **forced integration** of public schools resulting from ***Brown v. Board*** has accomplished only two things: it has profoundly lowered academic standards everywhere in the U.S., except where students are home schooled; And it has destroyed public education and left our public schools an expensive disaster. **Forced desegregation of the public schools handed them (and their ENORMOUS budgets) over to devious, incompetent, corrupt and mildly retarded blacks, who soon converted them into *graftocracies* of hopelessness and despair, where little learning takes place despite their outrageous expense.**

Multivariate Regression Analysis -- the most powerful and sophisticated analytical tool available -- has demonstrated that the lower average I.Q. of blacks "*explains*" all disparities in academic achievement between the two races. This means that *racism* has absolutely nothing to do with the problem of dismal black academic performance, which was the original "*rationale*" for federal court-ordered school desegregation that has cost the nation **TRILLIONS** of dollars over the past 50 years.

Disparities in academic achievement aren't caused by differences in income, either, despite endless lies to the contrary. Nationwide, white students in the *lowest fifth* of Family Income averaged higher scores on the SATs than black students in the **HIGHEST** *fifth* of Family Income.

(Ezekiel Dixon-Roman. *"Race, Poverty and SAT Scores."* Columbia University, *The Teachers' College Record*, April of 2013.)

Likewise, the **forced integration** of neighborhoods brought a **black criminal element into direct contact with its white victims, rapidly turning safe and crime-free neighborhoods into violent and dangerous cesspools**. When the percentage of blacks in a given area reaches a critical mass of about 20%, the writing is on the wall: only property crimes, violent crimes, car-jackings, burglary, voter fraud, declining property values, declining city services, "*food deserts*" and corrupt and incompetent local government lie ahead. Many black ghettos in the U.S. were once their city's most fashionable areas, but the lovely homes of city fathers in earlier times were long ago demolished to make way for public housing projects that now incubate *Future Felons of America*.

A similar principle applies to so-called "**red-lining**" by lending institutions which supposedly engaged in historical discrimination against blacks in mortgage lending for residential housing. **Successful and experienced lending institutions recognized over time that most blacks are absolutely incapable of living up to the terms of a contract**. (One example is how they routinely gun each other down over drug deals in the middle of the night.) Most are no more capable of making their mortgage payments than they are of repaying their many creditors in a timely manner. During the Obama Regime, the *Historically-Black Colleges* were reported to have 100% default rates on their graduates' student loans, so Obama forgave their debt.

The lying bastards in the Jews' Media have worked diligently to obscure this fact from the public, but the "**Sub-Prime Mortgage Crisis**" of 2008 was a DIRECT consequence of the so-called **Community Reinvestment Act of 1977**, passed by "*Democrat*" majorities in both Houses of Congress and signed into law by Jimmy Carter. It created racial lending quotas that forced interstate banks to lend to n*ggers with **TERRIBLE** -- or what were charitably called "**sub-prime**" -- credit histories.

No banker would ever voluntarily consider lending to such people in the absence of federal coercion. Few beneficiaries of these "*racial lending quotas*" had ever made a payment on time, so when interest rates on variable mortgages increased in 2008, foreclosures grew into the **TRILLIONS** of dollars. White taxpayers are still paying for the massive irresponsibility of so-called "*Democrats*," who enacted the misnamed **Community Reinvestment Act** to benefit their most reliable and numerous constituency, black deadbeats.

When n*ggers wanting to remove George Washington's name from their university use the term "*discriminatory policies*," they probably have in mind such things as **literacy tests** for voting. These tended to disproportionately impact blacks, because so many are retarded, illiterate, superstitious and incapable of learning anything about the founding principles of American government. **Look at the morons and crooks that blacks routinely elect to public office in large, urban areas.** Almost every black mayor in America is so incompetent, they cannot even begin to understand how to go about reducing the violent crime, welfare dependency, hopelessness, homelessness, drug usage, illiteracy and illegitimacy that are the legacies spawned by black domination of electoral politics (and voter fraud) in their respective cities. They have converted the "*gems*" of our civilization into complete and utter cesspools that have become "*black holes*" where tax revenues go to die.

Blacks have proved beyond any reasonable doubt that they are morally and intellectually **INCAPABLE** of self-government, because most are just too stupid, too childish and too dishonest to govern intelligently. If "*flash mobs*" or the jury nullification in the O.J. Simpson trial didn't convince you, then the recent acquittal of Michael Sussman in Washington, DC should have. They have presided over the rapid and irreversible disintegration of large cities, and every white person with a brain is working to get as far away from their disasters as possible.

Ironically, it is actually whites who have had their right to vote stolen by pervasive black voter fraud in large, urban areas dominated by blacks. Yet, they can still **"vote with their feet"** and get out. The exodus of whites from our largest cities has been described by one demographer as (paraphrase) *"the greatest human mass migration in world history."*

Segregationists have a very poor reputation among many younger generations that have experienced minimal contact with *Africanus criminalis*, and whose ludicrous "educations" render them incapable of critical thinking or even identifying in what century the *War of Yankee Invasion* took place.

However to those of us who are still capable of recognizing the truth - - and are willing to tell it in unvarnished terms -- those segregationists seem like visionaries, in retrospect. Even centuries ago, they possessed a vastly superior understanding of racial differences far beyond even those of professional anthropologists or psychometricians in this day and age.
