

California Dreamin'

White Californians needing further reasons to flee the state will soon have another. According to the *Washington Free Beacon*, California has established a "**Reparations Task Force**" that has compiled a list of proposals to compensate blacks for all the slavery they've been made to endure for the past 157 years. Its final report is scheduled to be released in July of 2023.

The 492 page report was compiled by policy-makers and so-called "*left-wing academics*" -- **are there any other kind?** -- that includes a number of preliminary recommendations compiled after years of "*careful study*." These proposals are intended to remedy the vestiges of slavery and discrimination that California's black residents have allegedly endured.

Black Californians are eligible if they can prove they are the "**descendants of African Americans enslaved in the U.S. or of free Black people living in the country before the end of the 19th century.**" Proof would be established by a new state agency, the **California African American Freedmen Affairs Agency**, which would provide genealogical testing for applicants.

Here are some of the report's highlights with commentary from me:

#1 **Forgive blacks in arrears on their child support:** (Blacks who sire endless litters of bastards have the paternal instincts of a Paramecium. Few will ever become current with their child support, so California figures it might as well make their *baby-mommas* totally and exclusively dependent on federal welfare programs funded by the rest of us.)

#2 **Establish a Truth and Reconciliation Commission:** (The inspiration for such a tribunal was the "*Moscow Show Trials*" of the 1930s, where innocent people were forced to confess non-existent transgressions in

order to to satisfy their communist masters before they were shot in the back of the head by the NKVD and buried within the walls of the *Lubyanka*.)

#3 **Free college education:** (Any retarded black can now go to college and get a ***Federal Family Education Loan***, even if their IQ and SAT scores are lower than their belt-sizes and they are functionally illiterate from having slept through 12 years of grade school and high school.)

#4 **Plant trees in black neighborhoods:** (From personal experience, I guarantee they will destroy them with whatever weapon they have at hand. That will be a precursor to the violence and savagery that will manifest more dramatically in later life.)

#5 **Less McDonalds, more Whole Foods:** (Dey likeses dat fried chicken, bacon and po'k rhinds. Yo white folkses ain't gonna change dey's dietary habits no matter what yo dooses.)

#6 **Decrease the police:** (After all, everyone with a three-digit IQ realizes that the more scarce the police, the more law-abiding the nigro. *Right?*)

#7 **Free health care:** (Nigras already get free health care. They use ***Medicaid*** like there's no tomorrow, and then ignore their medical bills when they arrive, just as they do with their utility bills.)

#8 **Cash transfer payments:** (Dem nigras ain't nebber gwan to turn down no white man money. So, invest in beer companies, liquor companies, and marijuana farms, because those will be the ultimate beneficiaries of that *free, white-man money*. Oh, and flashy rims, too!)
