

June, 2022 Black Murder Roundup

by Earl P. Holt III

Sgt. Marlene Rittmanic: This 49 year-old policewoman in the Chicago area was murdered in cold blood by two sub-human examples of *Africanus criminalis* in January of 2022. They shot her with her own weapon as she pleaded for her life. As a result of massive and perpetual nigroid "*Democrat*" voter fraud in the Chicago area -- which controls the political climate in the entire state -- Illinois does not have a capital punishment statute, so that's not an option.

Murderous Black Savages and White Victim

Officer Shane Bartek: This white, 25 year-old off-duty police officer was shot to death in Cleveland on New Year's Eve of 2021 in an apparent car-jacking by two rabid black savages, a n*gger male and a niggeress who may actually have fired the fatal rounds.

Lisa Valdez: This 36 year-old white woman was a software analyst in San Francisco who was stabbed 21 times by a rabid baboon and murdered in 1998. Her killer was a primate she dated in high school and then became reacquainted with years later.

The victim preferred dating nigras, and tended to socialize primarily with them. She learned much too late that when you lie down with rats, you get fleas. Her murder investigation became a "*cold case*" until 2010, when advanced DNA technologies allowed law enforcement to identify her killer. Her case was featured on ***Cold Case Files*** (Season 2, Episode 2, "*Devil at the Door.*")

Carol Fradette & David Thompson: These two white people aged 29 and 48, respectively, were murdered in October of 2018 by a black baboon in their separate homes in Woodbury, Vermont. After murdering them, the nig then set both homes ablaze. The investigation took more than a year, but it was expedited because the nig dropped his cellphone at the scene of the crime, giving police access to his phone calls, text messages, geographic locations and DNA. Thompson's murderer was also his heroin dealer, to whom he owed \$20,000.

Brianna Kupfer: This lovely and intelligent 24 year-old white woman was stabbed to death at work by a n*gger in January of 2022 in Los Angeles. The murderous black savage who killed her without provocation was a homeless ape with nothing better to do than kill a white woman on a whim. The murder occurred at a high-end furniture store, proving that no one is safe until we institute bounties on savage n*ggers.

Rabid Thug Murderer and Three White Victims

Andrew Hint & Sons: This 31 year-old white man and his two young sons were murdered in December of 2021 in Belvidere, Illinois by a rabid ape. The ape has been charged with three counts of first degree murder. He was well known to the victims, and was often a guest in the home of the mother of the two young victims. **Familiarity such as this led to their triple murder.**

Ryan Rogers: This 14 year-old white High School kid was stabbed to death by a savage rat-ape in Palm Beach Gardens, Florida in November of 2021. The rat-monkey has a 20-year arrest record, and was referred to as a "*dangerous monster*" by police. Like many black savages who fry their brains with drugs, this nig was off the charts for **CRAZY**, and assumed the boy was some sort of threat. (*However, he was sane enough to deny his involvement to police.*)

Sara Rose Pierce: This 30 year-old white woman and mother of three was gunned down in her own home in Highland Springs, Virginia in November of 2021. The murderer was her ugly, primate husband, who is charged with second degree murder and use of a weapon in a felony.

Murderous Ape and Its Victim

Taylor Pomaski: This 29 year-old white female residing in Spring, Texas was shot to death in April of 2021 and her body dumped in a rural area. She was last observed in a vicious fight at a house party in the home she shared with her live-in nigra boyfriend, Kevin Ware, a former NFL **tight end** with whom she co-habited. He was arrested when he failed to appear before his probation officer on unrelated drug possession and gun charges. *(Let's hope he becomes a wide-receiver in prison...)*

Victim & Murderous Black Savage

Carla Lowe: This lovely 21 year-old white woman from Pompano Beach, Florida was last seen waiting for an **AmTrak** train in November of 1983. She was abducted, beaten and murdered by a rat-monkey, who dumped her body near the **AmTrak** station in Del Rey Beach later that day. Her murderer was not arrested until December of 2021. Naturally, the nig has a lengthy arrest record including burglary, resisting arrest with violence, robbery with a gun or deadly weapon, selling, manufacturing or delivery of heroin and marijuana, and possession of burglary tools.

Allene Elizabeth Redmon & Another: Two white women were the victims of a rabid baboon they met on the cesspool known as **Facebook**, who then murdered them and dumped their bodies. Their murderer was *nig-named* the "Shopping Cart Killer" because he often

used a shopping cart to dispose of his murder victims. Allene Redmon was 54 and foolish.

Priscilla Lewis: This 21 year-old white woman from Vallejo, California was raped and murdered in September of 1996 by a black savage who worked with her at a restaurant in Crockett, California. It took 25 years, but new DNA technology allowed police to identify and arrest a sub-human example of the species *Homo habilis*, who was already serving a 295 year sentence for sexual assaults in unrelated incidents.

Lavonna R. Haddock: This 61 year-old white woman in Springfield, Missouri was murdered by her long-term nigroid boyfriend, who shot her to death in December of 2021. With their characteristic childish petulance, the nig shot to death his girlfriend of 37 years because she wouldn't let him switch channels to watch his favorite program on TV.

Lacy Kitchens & Frank Falcon-Delgado: This white woman (26) and her male companion (45) were shot to death in December of 2021 in their apartment in Tigard, Oregon. Their assailant was a black baboon named Ronald Stephens (40,) who was well known to both victims. He is charged with two counts of first degree murder.

Murderous Black Baboon

Dylan McGinnis: This 24 year-old white man was murdered by an example of the species *Homo habilis* in Indianapolis in October of 2021. The black bastard had been released on \$5,000 bail despite three felonies pending against him and one already on his record. **The murderer's entire bail was paid for by the "Bail Project," an organization consisting of communists and stupid niggers like Danny Glover, who bail out dangerous nigger felons in order to virtue signal their comrades in the NCPUSA.**

Glynda Dickerhoof: This 31 year-old white woman was murdered in Boca Raton, Florida by her nigroid "*baby-daddy*," who shot her to death at her home. The victim was engaged in a paternity suit against her baby-daddy, and he apparently decided to "*settle the case out of court*" to avoid his legal responsibilities.

Couple in Happier Times

Michelle Alyssa Go: This 40 year-old Asian woman was murdered by a rat-n*gger after being pushed onto the train tracks at the *Times Square* subway station in January of 2022. She was an executive at Deloitte,

and had earned a B.A. in economics from UCLA and an MBA from NYU. Her murderer was a smelly, homeless two-legged rat with a rap-sheet that extends back three decades.
