

## **Nikki & American Heritage**

by Earl P. Holt III

When "*Nikki*" Haley announces her intention to run for President -- and you can bet the farm she will -- **keep in mind that SHE was the first office-holder to strike a blow against Confederate Heritage.** As Governor of South Carolina, she ordered the *Confederate Battle Flag* banned from the Capitol Grounds in Columbia immediately after Dylan Roof murdered nine innocent black church-goers in Charleston back in 2015.

Dylan Roof's inexcusable savagery and the symbolic nature of the *Confederate Battle Flag* are what statisticians call "***independent events.***" In conventional terms, the two have **NOTHING** to do with each other. However, **Nikki was the first high-profile office-holder in the South to engage in such "virtue-signaling," and it created an excuse for Cultural Marxists, n\*ggers and other communists to wage war against every vestige of Confederate or Southern Heritage in the South and elsewhere.**

These cultural vandals became so emboldened, they didn't stop with Confederate monuments and soon began tearing down statues of Columbus, Washington, Lincoln, Jefferson, Franklin and every other prominent and historic white figure. Being recent products of America's "*education*" system, few even knew who their targets were or in what century the *War Against Yankee Invasion* took place, and couldn't have cared less. They are intent on destroying our cultural heritage, just as their Marxist ideology requires. As George Orwell put it, **"The most effective way to destroy people is to deny and obliterate their own understanding of their history."**

*Nicki* was already serving her second term as Governor, so she could ignore the wishes of South Carolina voters who happened to cherish their Confederate ancestry and heritage. As an East Indian Sikh – whose correct first name is *Nimrata* -- not "*Nikki*" -- Confederate Heritage probably seemed as alien and quaint to her as the "*Rule Against Perpetuities*." Her actions were impulsive, thoughtless and ill-considered gestures, motivated primarily by a desire to demonstrate "*virtue signaling*," and thereby ingratiate herself with the Jews' Media to satisfy their blood-lust.

Not long after the catastrophe she initiated in 2015, she began walking back her remarks a bit -- or at least those involving the significance of the Confederate Battle Flag -- for the benefit of many South Carolinians whose votes she may someday need. Her ambitions could not be more obvious, and it became clear that she had her eyes set on higher office.

An article that appeared last December in *The Hill* noted the following: "***Former U.S. Ambassador to the United Nations and South Carolina Governor Nikki Haley says that Dylan Roof, who shot and killed nine black Americans in a Charleston church in 2015, 'hijacked' the meaning of the Confederate flag.***"

**Unfortunately, the damage had already been done, and it's too late for Nikki to hide from her earlier and patently obvious efforts at virtue-signaling. Her initial charge was that the *Battle Flag* ITSELF -- AN INANIMATE OBJECT -- inspired Roof to murder innocent people, not that he somehow "*hijacked*" its meaning.**

The damage done by selling-out Confederate Heritage is incalculable and probably irreversible. And I've got news for you, *Nimrata*: The Jews' Media despise you and will always work to undermine any campaign you may pursue in the future. That's because you are a Republican, and it was written in blood once you served Donald Trump as U.N. Ambassador.

You have proved yourself to be as clueless as Mitt Romney, John McCain, Liz Cheney, Adam Kinzinger and many other fools in the GOP, who are also dumb enough to think they could strike some "*gentleman's agreement*" with the Jews' Media and Cultural Marxists by betraying their constituents and supporters.
