

Pathetically Clueless!

California Governor Gavin Newsome -- the most incompetent governor in the nation's most poorly-run state -- has begun sponsoring ads targeting Florida residents and encouraging them to move to California for "**greater freedom**."

Governor Ron DeSantis of Florida -- probably the brightest and most talented governor from the best-run state -- should *ENCOURAGE* Newsome to keep running those ads in Florida, and maybe even help subsidize them with Florida tax revenues.

A DeSantis spokesman called the Newsome ads "pathetic." That's because anyone stupid enough to believe that the *People's Republic of California* offers greater personal freedom than Florida does, are so stupid, it would actually benefit Florida to see them leave. The ads appear to target abortion advocates, race-hustlers, communists, queers and circus freaks.

Ironically, California offers the highest **taxes** in the nation, the least affordable **housing**, large cities that are **ungovernable**, a couple of county DAs who are traitorous **communists**, maps of areas where tourists must be diligent to avoid human **feces**, the largest **homeless** populations in the nation, and the **worst state government** in all 50.

The imbeciles in California's state government have perpetuated endless and out-of-control **wildfires** by prohibiting so-called "**fire-breaks**" that prevent the spread of wildfires across a clear-cut area. This used to be routinely accomplished by county fire departments, but the practice was prohibited in 1990 to benefit the "*Kangaroo Rat*." Since then, wildfires have been ubiquitous and particularly destructive.

By enacting **California Assembly Bill 5**, California has also forced 100,000 independent trucking firms to go out of business or flee to other states. This law barred small trucking companies from hiring independent contractors to drive their fleets, and mandated they convert 11% of their fleet to electric vehicles by January 1st of 2021. That's why all those cargo containers were backed-up at the ports of L.A. and San Diego last Fall.

Likewise, the cities of San Francisco and Los Angeles are "**sanctuary cities**" for violent and dangerous criminals, and full of illegals, morons and **woke imbeciles**. They have also elected real communists to be their county prosecutors, several of whom refused to prosecute many violent crimes and usually charged defendants much too leniently.

California is also about to make reparations to its black residents for all that slavery they've had to endure for the past 157 years. Presumably, its massive and dangerous black criminal element will be equally eligible for that free, white-man money.

L.A. and San Francisco are also Meccas for the **homeless**, who prefer outdoor plumbing, rats, drugs, alcohol, mental illness, needles and shop-lifting. In San Francisco, alone, **Walgreens** was forced to close nearly 20 stores due to theft and other "**shrinkage**."

I wish Newsome would run that ad promoting California here in Missouri. If we could get our black criminals and their white, "Democrat" enablers to depart St. Louis and Kansas City for California, Missouri would be almost as appealing a destination as Florida. It would only be lacking an ocean or gulf view.
