

Reforming Education

The *gender-counseling* of kids
proves education's *hit the skids*;
Where CRT is found in schools
such schools are being run by fools.

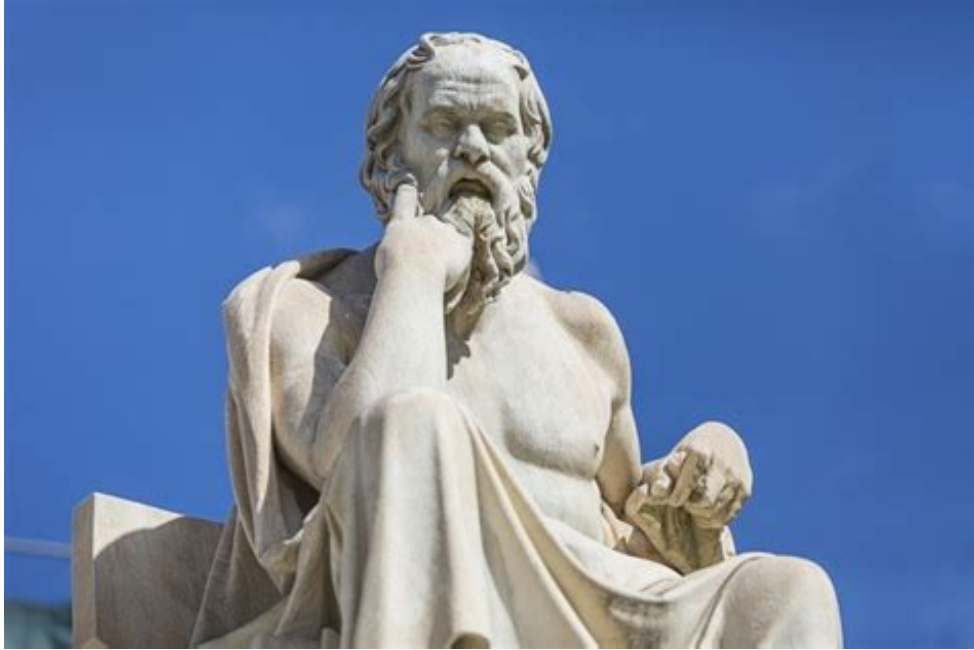

Equality is held most dear
so we spend Trillion\$ every year;
Squandered upon this "*holy grail*"
where forced equality must fail.

With nothing "*feminine*" but curls
males may compete against the girls;
Their physicality looms large
without a peep from those in charge.

Closing schools of education
would raise standards 'cross the nation;
Trash in and out's an expression
describing this lost profession.

The secret to reforming schools
is purge them of all Marxist fools;
give unions a loooooong vacation:
jettison certification.
