

The STUPID Party

John Fetterman is the Marxist Jew and "*Democrat*" running against Dr. Oz in Pennsylvania's 2022 U.S. Senate race. The **RNC** is running TV ads against him to publicize the fact that he mistakenly pulled a gun on a black jogger back in 2013, who Fetterman assumed was a fleeing criminal. The mediocrities and morons at the RNC are stupid enough to think that incident will harm Fetterman.

In light of the massive and monumental n*gger crime taking place all across the nation, the fact that Fetterman pulled a gun on a presumed black criminal probably **IMPROVES** his candidacy, and the RNC is merely assisting Fetterman by running it. If Fetterman is at all hurt by the RNC's \$500,000 ad campaign, it will only be because he didn't shoot the guy.

What that ad campaign really shows is that Dr. Oz is not ready for prime time, and that he has foolishly fallen into the trap of allowing the tone-deaf idiots in the Republican *political class* and *donor class* to dictate the issues in his campaign. He is a fool for doing so. He should be talking about black violent crime, illegal immigration and the fact that "*Democrats*" are spending like n*ggers with a stolen credit card.

Dr. Oz and Uncle Fester

The donor class has a long and discredited track record of backing losers, most of whom inevitably betray GOP voters through self-dealing. They are what's wrong with the Republican Party, because they are dilettantes and their political judgement is **TERRIBLE**. They generously funded Liz Cheney in Wyoming, who lost her House primary by 37 points despite being the incumbent. They generously fund the senate campaigns of Lisa Murkowski (Traitor-AK,) Susan Collins (Insipid-ME,) and anyone else who hates Donald Trump.

These are the geniuses who backed Gerald Ford and George Bush against Ronald Reagan, and dropped \$100 Million on Jeb Bush, who managed to secure three delegates to the Republican Convention in 2016. They hate Donald Trump because they can't control him, and because Trump won over the party they consider their personal hobby. Their bribe money converts well-intended reformers into self-dealers immediately upon arriving in Washington. Look at Mitch McConnell and *his* entourage.

The cowards and self-dealers who comprise the Republican *political class* are so afraid of being called *racist* by our opponents or their allies in the Jews' Media, they can be manipulated into supporting almost any cause, no matter how ridiculous or subversive. They get their marching orders directly from the equally insipid *donor class*.

These people and their masters in the donor class are both cowards and idiots, and no one should ever listen to their advice. They are a big reason why Sam Francis called the GOP "*The STUPID Party*."
