

Electoral Strategy #2

by Earl P. Holt III

For years, the #2 electoral strategy of "*Democrats*" -- more accurately designated the ***New Communist Party of the USA*** (NCPUSA) -- has been to **shamelessly lie** with abandon. They get away with it because their allies in the Jews' Media ignore their lies and censor critics who try to correct the record. In terms of its priority, this strategy of lying comes immediately after systemic **voter fraud** and just before a contrived "**October Surprise.**" (Earl P. Holt III. "*Electoral Strategy #2.*" **CITIZENS INFORMER**, December of 2020.)

As their impending bloodbath in the 2022 mid-term looms, the NCPUSA has revved-up its lies to a fevered pitch. NCPUSA candidates at nearly every level have uttered lies that even the dumbest and most ignorant rank-and-file "*Democrat*" knows is blatantly false. One obvious example has been Joe Biden's attempt to blame Donald Trump for his own 8.3 percent inflation rate, even though inflation was at 1.2 percent when Biden took office. Here are other examples:

New York Governor, **Kathy Hochul** -- the only New York official more clueless than the *Big Apple's* black Mayor, Eric Adams -- denies that crime is a problem in New York, even as murder and other violent crime rates climb and its violent criminals become increasingly emboldened. Apparently she doesn't watch the news, where **EVERY NIGHT** a new and grisly video surfaces showing some n*gger murdering an innocent citizen, sometimes by pushing them onto the subway's tracks or shooting or knifing them.

Clear across the nation, the campaign headquarters of Arizona's NCPUSA gubernatorial candidate, **Katie Hobbs**, was burglarized two weeks before the 2022 mid-term elections. Hobbs reflexively accused Republican rival

Kari Lake of instigating the crime, even though Kari Lake was polling ten points ahead and increasing her lead by the day. The crook had no ties to Kari Lake, and was soon apprehended while committing another burglary. Hobbs knew that the Jews' Media would initially run with her lie, but would later make no effort to correct the record even after the truth was revealed.

DEMOCRAT
LIES
MATTER

Michigan Governor **Gretchen Whitmer** is a real piece of work, as well. This former employee of George Soros shut-down the state of Michigan so tightly during the COVID *scamdemic*, its schools remained closed for two years. Of course, places of worship were also shuttered, but marijuana shops, liquor stores and casinos were permitted to remain open. Recently, in a debate with her Republican opponent, Tudor Dixon, Whitmer claimed that she had shut-down the schools for only three months. Every parent of a school-age child in Michigan knew that was a bald-faced lie and she will pay dearly for it.

Here in Missouri "*Flyover Country*," one of the **Anheuser Busch** heirs, **Trudy Busch Valentine**, is running for the U.S. Senate against Missouri's conservative Attorney General, Eric Schmidt. Desperate for an issue to attack her opponent, Busch-Valentine denounced A.G. Schmidt in a

series of ads for permitting communist China to purchase Missouri farmland. China's purchase of U.S. farmland **IS** a big problem, but there are no existing statutes that authorize Schmidt to interfere with land sales to China or any other foreign entity. This may be news to Busch heirs in the NCPUSA, but Missouri's attorney general does not have the authority to simply invent laws on a whim, as Earl Warren's Supreme Court used to do. It's a phenomenon known as "*Rule of Law.*"

Political chameleon **Charlie Crist** has run for public office in Florida with the nomination of every political party except **Nudists** and the **Flat Earth Society**. With the blessings of the NCPUSA, he is now challenging incumbent Ron DeSantis for the state's governorship. In their debate last week, Crist alleged that Governor DeSantis was "***the worst governor in modern Florida history,***" in addition to being a "***lockdown governor***" during the COVID *scamdemic*. This prompted explosions of laughter from everyone in the room because they all knew DeSantis spent two years defying Biden's corrupt public health officials to keep Florida schools open and Florida tourism alive. His courageous leadership gave Florida its largest budget surplus in the state's history.

Pennsylvania is an energy-rich state that relies heavily upon oil and gas production for its energy needs, in addition to the royalties those industries pay the state. Naturally, the NCPUSA's U.S. Senate candidate in Pennsylvania, **John Fetterman**, recently declared three times during his only debate with his Republican opponent, Dr. Mehmet Oz, that he "***was for fracking.***" Yet, John Fetterman has a four-year record of **OPPOSING FRACKING**, a state-of-the-art technique used by the oil and gas industries to extract additional product from wells once presumed to be dry.

Another example comes courtesy of **Beto O'Rourke**, an empty-headed lad who's made a lucrative career losing races for public office. In earlier campaigns for the U.S. Senate and the presidency, he heartily endorsed

confiscation of so-called "*assault weapons*," and advocated the abolition of the *Second Amendment*. At least he was candid: he told us he was coming for our guns and meant it. Now that he's running for Governor of Texas, he's experienced an "*epiphany*" and become what he claims is a Second Amendment "*defender!*" Campaigning in very conservative Tyler, Texas, he announced that he now "**wants to defend the Second Amendment**" and has "**no interest in taking away**" anyone's assault weapons.

Ohio NCPUSA candidate **Tim Ryan** is running against a very articulate Trump-endorsed opponent in Republican J.D. Vance, so naturally he has also resorted to lying. He now advocates bipartisanship and working with Republicans, but voted with Joe Biden 100% of the time in the current Congress where he serves in the House (D-OH-13.) He also now claims that he opposed defunding the police, but voted against a March 3rd, 2021 Motion in the House to condemn the practice of defunding cops in Blue cities. He also now praises Trump's imposition of retaliatory tariffs on Chinese imports, but

called them "*abominable*" and "*nonsensical*" during the election cycle in 2020.

In his recent debate against his GOP opponent Blake Masters, Arizona Senator **Mark Kelly** claimed that he stood for a secure border. In fact, Kelly repeatedly voted against border security like every other Member of Congress from the NCPUSA. In February of 2021, Kelly voted against a Senate Motion to prohibit cancelling existing contracts to erect Trump's border wall and interrupt its construction. (117th Congress, Johnson Amendment # 542, February 5, 2021.) Kelly voted against the same measures in May and August of 2021 after it was resubmitted several times by its author, Senator Ron Johnson (R-WI.)

Finally, **Joe Biden** -- the worst pathological liar in American Political History -- recently blamed Donald Trump for Biden's own high inflation rates, the worst in 40 years. Biden not only blamed Trump for his own 8.5 percent inflation rate, he later stated in front of some approving but brain-dead union thugs that if the Republicans return to office, inflation will be through the roof: "***If Republicans in Congress get their way, prices will go up and inflation will get worse. It's that simple.***" This idiot doesn't even understand what inflation is, and stated in August that inflation was "***zero***" when it did not increase in July of 2022, although it actually remained at an 8.5 percent rate.

All across the nation, the NCPUSA's candidates for public office are running from earlier pronouncements and positions like Spaniards from angry bulls during the *Corrida de Toros* in Madrid. They are attempting to accomplish this seemingly impossible task by lying with impunity as if there's no tomorrow. (And for many that may be the case...)

If the hopelessly corrupt Jews' Media were not in bed and *en flagrante`* with the NCPUSA, the lies of its candidates would be quickly exposed and subject to ridicule. Unfortunately, that's not currently the case: honest

political debate that is free of their lies, prevarication, mendacity and dissembling may have to await reforms now afoot at ***Twitter***.
