

Open Letter to "*Democrats*"

In an unusually lucid moment, George Will once remarked that "*We get the kind of government we deserve.*" I suspect he had in mind primarily those who don't bother to vote and those who are too stupid to critically evaluate the lies found in campaign promises and rhetoric.

Of course, NO Trump supporter deserves our current incompetent and traitorous government: none of us were ever under any illusions about Joe Biden, who's been a dolt, a criminal, a pathological liar and a thug for his entire adult life. We don't deserve the consequences of a Biden Presidency, although we must reluctantly share them with those who do.

AMERICANS ARE NOW EXPERIENCING A STEADY AND DEMONSTRABLE DECLINE OF OUR NATION AND CIVILIZATION, AND WE NEED TO ASK OURSELVES THE FOLLOWING QUESTIONS:

Do you want to live in a society where the public schools **usurp parental authority** over your school-age kids, subjecting grade schoolers to the malignancy of Marxist *Critical Race Theory* and encouraging them to "*transition*" their genders?

Do you want to live in a dystopia in which violent and dangerous black criminals are assessed **little or no bail** at their arraignments, and receive **early release** from prison so they may continue to practice their trade?

Do you want to live in a *banana republic* in which federal and state **law enforcement is weaponized** and then misused to harass and falsely charge political opponents with criminal transgressions?

Do you want to live in a dumping ground for the Third World where **illegal aliens** -- many of whom are criminals, recently sprung from their

nation's prison systems -- can enter illegally by the MILLIONS each year and then enjoy **more rights and immunities** than legal citizens?

Do you want to live in a society whose government recognizes **NO CONSTRAINTS** on its authority to spend other people's money -- primarily that of their political opponents -- and transfer it to their supporters to reward their electoral support?

Do you want to live in a society in which **elections are routinely stolen** by an organized criminal enterprise, which then obstructs all legitimate efforts to investigate that voter fraud at every step of the process?

Do you want to live in a world where our mortal enemies -- who used to fear us -- now pursue their aggressive designs against smaller nations with little or **no fear of reprisal** by the U.S.?

Do you want to live in a society where unelected and compromised public health officials can impose arbitrary, capricious and **destructive mandates** without any basis in either science or common sense?

Do you want to live in a society where **Freedom of Speech is censored** by an "*unholy alliance*" of corrupt federal officials and the *oligopolists* who control the cesspool known as "*social media*"?

Do you want to live in a nation whose national security is ravaged by a **"woke" agenda**, where queers, feminists and transgenders are elevated to command combat units in our armed forces?

Do you wish to live in a society in which our elected officials routinely **insulate themselves** against the ravages of their own policies -- by establishing a separate health care system and pension fund -- and then campaign for reelection as "*populists*"?

If your answer to any of these questions is "yes," then continue to vote "*Democrat*": you are too ignorant, stupid, dishonest and traitorous to call yourself a Republican. We don't want or need you. We suggest you get back on your meds and get help.
