

Self-Perpetuating Disasters

by Earl P. Holt III

Years ago, I detected a pattern that Rush Limbaugh also recognized and occasionally commented upon in his show. Vile "*Democrats*" routinely implement policy disasters then, when public opposition grows, they offer even worse "*solutions*" to the disasters they previously imposed with their original, ill-conceived policies.

IMMIGRATION: For example, the *Department of Homeland Security* (DHS) in the Biden Administration rescinded Trump's "*Remain in Mexico*" policy and abandoned construction of Trump's wall on our Southern Border. The immediate consequence has been an unprecedented tsunami of 4,500,000 illegal immigrants since Biden took office. The Biden Administration's refusal to enforce U.S. immigration laws has also permitted record levels of deadly drugs and human trafficking across the Mexican Border. Even brain-dead "*Democrats*" are awakening to our immigration disaster, so what does DHS propose? It has established a **Misinformation Bureau** -- much like George Orwell's *Ministry of Truth* in the book **1984** -- to investigate and harass those who dare to expose our porous southern border or question the Biden Administration's disastrous immigration policies.

ENERGY INDUSTRY: On Joe Biden's first day in office, he used *Executive Orders* to impose new and onerous restrictions on the oil and gas industry, while canceling the *Keystone XL Pipeline* and refusing to grant permits for further oil and gas exploration on federal lands. Biden's policies ended our decades-old quest for U.S. energy independence, achieved for the first time in 50 years by President Trump during his first administration. The resulting shortages soon tripled the world price of crude oil, and more than doubled the U.S. price of gasoline. In response to the public outcry, Biden was forced to **beg for increased oil**

production from such enemies as Russia, Iran and Venezuela, in a political stunt to lower U.S. oil and gas prices just prior to the 2022 mid-term elections.

Another Biden "*solution*" to the catastrophe has been to propose new taxes on the oil industry and recommend that everyone buy an expensive electric vehicle. He also badgered independently-owned gas stations to lower their prices, even as they were being squeezed between inflation and rising crude oil prices. He has even depleted one-half of our **Strategic Petroleum Reserve** as a gimmick to temporarily lower gasoline prices, and then hijacked that strategy to sell millions of barrels of oil to his masters in China. With mid-term elections looming in November, Biden visited Saudi Arabia in July to beg for increased oil production to lower energy costs in America. He was snubbed by the Saudis, who later announced plans to reduce production by two million barrels per day. Biden responded to this announcement with vows to **cut-off arms sales to the Saudis**, which will only drive them closer to the Russians.

CRIMINAL JUSTICE: Strict gun control and the de-funding of police has left citizens in **BLUE** areas at the mercy of violent n*gger savages and homeless lunatics. When black violent crime incidents began to skyrocket, the universal "*Democrat*" solution has been to adopt a number of truly **insane criminal justice "reforms"** that merely encourage crime by eliminating its costs to perpetrators. One so-called "*reform*" has been to eliminate cash bail at pre-trial release, another was to grant early parole from prison in order to *spring* violent offenders, and a third involved "*decriminalizing*" many traditional offenses. After subverting the criminal justice systems in their respective cities, mayors in Chicago and Portland have pleaded for federal assistance to stem their accelerating violent crime rates. Some are even planning "*gun buy-back programs*" that would merely disarm law-abiding civilians and leave the n*gger savages fully armed.

The Yankee Government

ECONOMY: Profligate federal spending at every opportunity by "Democrats" has generated a combined Federal Deficit of \$4.2 Trillion for Fiscal 2021 and 2022, adding dangerously to our current **National Debt of \$31 Trillion**. Much of this profligate spending must eventually be "*monetized*" by the Federal Reserve, which involves printing more money *from thin air* to fund these excessive levels of expenditures. The chronic monetizing of Trillions of dollars in debt has produced an economy awash in cash, generating our current double-digit levels of inflation. In response, the organized crime figures who staff the Biden Administration have enacted -- on a straight party-line vote -- what is laughably called the **Inflation Reduction Act of 2022**.

This fraudulent legislation calls for an additional \$400 Billion in spending and massive transfers of wealth to "**green**" and other "*soft*" energy sources. In addition, it throws money at **ObamaCare** and other transfers of wealth to benefit the "*Democrat*" Party's political *supporters* at the

expense of their Republican political rivals. It also includes provisions to raise taxes, which is what caused the *Great Depression* by turning a recession into an economic catastrophe that lasted more than a decade.

PUBLIC EDUCATION: Federal Court-ordered *desegregation* illuminated profound disparities in academic achievement between black and white students, owing to the demonstrably higher IQs of whites. The achievement "gap" that resulted is routinely cited by race-hustlers and other "Democrats" as proof of "**systemic race discrimination**" or "**white privilege**," or whatever *excuse de jour* is currently fashionable.

In an attempt to shrink this achievement gap -- that "experts" predicted would disappear with school desegregation -- race-hustlers and their "Democrat" allies at the federal Department of Education and the traitorous teachers' unions have spent **TRILLIONS OF DOLLARS** in tax monies. They dumbed-down the curriculum, introduced *Critical Race Theory*, imposed a *No Child Left Behind* curricula, and introduced travesties such as "*Ethno-Math*" with no wrong answers. These have merely continued to **WIDEN** the achievement gap and **generated declining standardized test scores** among all students in international comparisons like the *Program for International Student Assessment* (PISA.) Here, the U.S. currently ranks at the bottom among industrialized nations in Math and Science.

PUBLIC HEALTH: Anthony Fauci's *National Institute for Allergies and Infectious Diseases* (NIAID) secretly funded the **Wuhan Institute of Virology** (WIV) during the Obama regime in 2014. The *gain of function* research carried out by the WIV was soon coopted to serve the Chinese military's virologic warfare program. Fauci and other "Democrats" deny this obvious fact, but it is now beyond reasonable doubt that the WIV was the origin of the COVID-19 virus, and that it was manufactured as a result of "*gain-of-function*" research funded by Fauci and his NIAID.

Thus, it became vital that Fauci hide his embarrassing and potentially criminal culpability, so he **misappropriated \$50 Million in NIAID funds** at his disposal to extort several prominent researchers with grants to entice them to publicly recant their earlier position that COVID was "*engineered*" rather than a naturally-occurring virus. Not surprisingly, Fauci recently made another large grant to study bat viruses at the *Wuhan Lab* through **EcoHealth Alliance**, an intermediary in New York. It was an "*in-your-face*" gesture to his many critics such as Senator Rand Paul (R-KY.)

NATIONAL SECURITY: The lack of a capable and skilled national security team in the Biden Administration led to America's shameful, disastrous and disorganized retreat from Afghanistan. In turn, this not only emboldened our mortal enemies, it also caused many key and seasoned military officials -- both commissioned and non-commissioned officers -- to retire or resign. To help fill the ranks, the Biden Administration has aggressively **promoted queers, feminists and transgenders** to critical leadership rolls in combat units, which will make our ability to fight even more dubious. This has only served to embolden our mortal enemies, a fact evident in a flurry of recent belligerent acts by Iran, North Korea, Russia and China. Warriors who risk their lives do not wish to be led by queers, feminists or transgenders.

CONSTITUTION: Finally, most readers can't fail to have recognized that the generosity of "*Democrats*" in creating Lyndon Johnson's *Great Society* spawned unprecedented levels of dependence, illegitimacy and crime among blacks. To deal with black poverty and hopelessness, the "*Democrats*" endorsed **race quotas in employment** to force the hiring of incompetent blacks to positions where they were often not even remotely qualified. Kamala Harris and Karin Jean-Pierre are living, breathing example of this evil. Endless other examples exist.

This is not to suggest that incompetence and arrogance are solely responsible for the failings of the Biden Administration and "Democrat" Party. A great many of their disasters are intentional and purposeful, in order to make us vulnerable and then benefit our mortal enemies by helping to usher in a "New World Order" based on international socialism.

Stalin called individuals like those in the Biden Administration "*useful idiots*," and vowed that they'd be the first to hang. If their proteges succeed in delivering America into the international socialist orbit, at least we'll have something to look forward to if Stalin's intentions are ultimately effectuated.
