

RINOs: *Donor Class Whores*

by Earl P. Holt III

My first experience with the bitter taste of political betrayal by RINO "Republicans" occurred in 1978, when Missouri Senator Jack Danforth joined "Democrats" and a few other RINOs to return the **Panama Canal** to the nation of Panama. Panama wouldn't even exist as a nation were it not for the protections it was guaranteed by President Teddy Roosevelt when Panama declared its independence from Colombia in 1903. In return for those guarantees, it granted America the authority to build a canal there at a cost of considerable American blood and treasure. As RINOs and "Democrats" were plotting to return it, wise opponents of the **Panama Canal Treaty** argued that it could eventually fall into enemy hands. Those opponents of the treaty have been thoroughly vindicated, as communist China's *Belt and Road Initiative* has proved.

Likewise, while Ronald Reagan's tax cuts were creating 22 million new jobs and double-digit GDP growth, his RINO vice president, George Bush Senior, began plotting his campaign to succeed Reagan as president. Throughout 1988, Bush Senior campaigned on a pledge not to raise **income taxes**, immortalized in his *sound bite* "**Read my lips, no new taxes.**" Yet, soon after he was elected, Bush betrayed Reagan and the GOP by raising personal income taxes to placate the Jews Media, which desperately wanted to see the roaring economy of Ronald Reagan stifled. The Jews' Media succeeded, and the foolish Bush once again returned the GOP to its accustomed role of tax-collectors for the "Democrats." Bush lost his presidency four years later to *Slick Willy*.

It was during *Slick Willy's* two terms in the 1990s that America irreparably damaged its own economy by **exporting our manufacturing base to China**, destroying millions of *blue-collar* jobs and middle-class family incomes. Of course, RINO's were enthusiastic participants in this

betrayal, with most voting to grant China *Most Favored Nation* trade status and welcoming China into the **World Trade Organization** with open arms. Only a few *paleo-conservative* visionaries questioned the wisdom of such trade policies, but most RINOs were too busy scrambling to invest in China. Many like McConnell became quite wealthy doing so, and then turned a blind eye to the fact that they were clearly funding China's arms build-up, just as they had done in the 1970s with trade "*credits*" given to the Soviet Union.

The worst "*treaty*" the U.S. Federal Government ever negotiated was Obama's "**Iran Deal**" in **2015**. The weak and incompetent RINO Chairman of the *Senate Foreign Relations Committee* -- Bob Corker of Tennessee -- acquiesced to a simple majority vote in the Senate for its

"*ratification*," rather than the two-thirds majority required for ratifying Treaties found in the Constitution. This freed up hundreds of billions in Iranian assets frozen by the international banking community. In return, Iran made disingenuous promises not to build a nuclear weapon, but to no one's surprise, Iran continued full-speed ahead with its nuclear ambitions. Corker was simply too weak, doltish and cowardly to stand up to the Jews' Media's cheerleaders for America's first Marxist, Moslem and nigro president.

Another truly incomprehensible betrayal of **REAL** Republicans took place in **2018**, prior to that year's **Mid-Term Elections**. While President Trump was defending himself against false and treasonous accusations by crooked Clinton loyalists at the FBI and DOJ -- alleging that he "*conspired*" with Russia to steal the 2016 Presidential Election -- RINO Speaker of the House Paul Ryan was busily advising all Republican candidates to abandon Trump and distance themselves from him on the campaign trail. As Speaker, Ryan truly was a whore for the *Donor Class*, which considers the GOP to be its personal source of notoriety and political power, and desperately sought to see Trump destroyed so it could reassert its dominion over the party.

Through **2017** and **2018**, Ryan also refused to issue even one of the **33 subpoenas** requested by Devin Nunes -- the courageous Chairman of the *House Intelligence Committee* -- who was investigating the illegal spying and false charges against President Trump. Every witness who appeared before the committee made sworn statements that exonerated Trump: but the dirty cops and prosecutors who perjured themselves to falsely charge Trump could not be interrogated by the committee thanks to Speaker Ryan's refusal to grant even one subpoena. This permitted Trump's enemies to drag out the fraudulent *Mueller Investigation* for three years, at considerable loss of time, political momentum and political capital to the Trump Administration and the GOP.

Unbelievably, Senate Minority Leader Mitch McConnell did the same thing in the **2020 Presidential Election** that Paul Ryan had done earlier, by advising GOP Senate candidates to run away from President Trump in their campaigns. Like Ryan before him in 2018, McConnell was **NOT** acting in the best interests of the GOP, he was simply doing the bidding of a Machiavellian and out-of-touch *Donor Class* that desperately sought to recover its control of the party in order to benefit its self-dealing members. **Ryan's betrayal helped lose the House to "Democrats" in 2018, and McConnell's betrayal helped lose control of the Senate to "Democrats" in 2020.**

Republican "*Leadership*" in 2018

Massive evidence of **voter fraud** in "*swing*" states has surfaced since November of **2020**, but without any assistance from Mitch McConnell, who ignored "*Democrat*" voter fraud for his entire 36 year Senate career. For all 36 years he's been in the Senate, McConnell has studiously avoided investigating "*Democrat*" vote fraud out of fear of being called "*racist*." (As we learned in Atlanta, Detroit and Milwaukee in 2020, the overwhelming majority of vote thieves are nigroid.) His fear of being

labeled a racist by the Jews' Media is probably what compelled him to advise Attorney General Bill Barr **NOT to investigate the 2020 voter fraud** in swing states, where the presidential election was clearly stolen for Joe Biden.

During the **2022** midterms, McConnell even pulled support from stellar, Trump-endorsed Congressional candidates -- like Blake Masters in Arizona and General Donald Balduc in New Hampshire -- and **transferred those funds to RINO** traitors like Alaska Senator Lisa Murkowski, who was one of only seven GOP Senators who voted to impeach Trump in either of two Impeachments. It's increasingly apparent that McConnell would prefer that Republicans fail to retake the Senate rather than lose his position as Majority Leader when a new class of conservative and Trump-endorsed Freshmen Senators take their seats. That's how petty and slimy McConnell is, and proof that this self-dealing bastard doesn't have the interests of the GOP at heart, and probably never did. (McConnell is a living and breathing argument for **TERM LIMITS**.)

McConnell has always epitomized the RINO mentality. Throughout his Senate career, McConnell has routinely compromised and caved rather than fight for conservative principles. In fact, he often appeared to be embarrassed by them. His attitude has always been the same as the RINOs who support him, one of **concession and retreat**. They always vow to **"fight hard next time,"** but *next time* never comes. Even when they've had the opportunity, they rarely pushed back against such outrages as amnesty for illegal aliens, or sanctuary cities, counties and states. They never fought back against *Motor-Voter* legislation that gave state Drivers' Licenses (and voter registration) to illegal aliens, thus relieving illegals of the need to buy phony IDs to illegally vote in U.S. elections. RINOs also acquiesced in mass-mailed ballots, a primary source of voter fraud in 2020.

Earlier, in **2019**, McConnell refused to fund **Trump's border wall** and warned Trump against using an Emergency Declaration to fund it. The resourceful Trump was forced to transfer funding for the wall from the **Homeland Security** budget, because of the refusal of McConnell and other RINOs to support it. McConnell was joined in his opposition to an *Emergency Declaration of Invasion* by other self-dealing and cowardly RINOs, all of whom are whores for the *Donor Class* like John Cornyn of Texas or John Thune of North Dakota. With 5.5 million illegals entering the U.S. in just the first 20 months of the Biden Administration -- and with waves of human trafficking and over 100,000 *Fentanyl* deaths per year -- it turns out the border **DID MERIT** an *Emergency Declaration*, and the gutless RINOs who opposed it betrayed America, pure and simple.

Their greatest test of loyalty came when Congress had to vote in the second of the two phony **Impeachments** brought against Trump, both of which were entirely political. In his first Impeachment in **2019**, no Republican House Member voted to Impeach him, but Mitt Romney (Traitorous Asshole-UT) voted with "*Democrats*" in the Senate to remove Trump from office. Fortunately, Trump's enemies failed to achieve the two-thirds majority needed to remove a sitting president. However, in his second Impeachment in **2021**, those 10 House Members who voted to Impeach Trump -- and the seven in the Senate who voted to remove him -- were all RINOs as well as morons for assisting the "*Democrats*" and the corrupt *Donor Class* by doing their dirty work.

The following Republican House Members voted to impeach Trump, all of whom were stupid enough to believe the blizzard of lies and false allegations disseminated by the Jews' Media following the events of January 6, **2021**: Liz Cheney (WY,) Anthony Gonzalez (OH,) Jamie Herrera-Beutler (WA,) John Katko (NY,) Adam Kinzinger (IL,) Peter Meijer (MI,) Dan Newhouse (WA,) Tom Rice (SC,) Fred Upton (MI,) and David Valadao (CA.). Thankfully, most of these idiots are retired, either voluntarily or otherwise.

Those in the Senate who voted to remove Trump are the usual suspects and traitorous whores for the Donor Class. They are Burr (Idiot--NC,) Murkowski (Fraud--AK,) Collins (Insipid--ME,) Cassidy (Clueless--LA,) Toomey (Weasel--PA,) Romney (Traitorous Asshole--UT,) and Sasse (Ambitious Fool--NB.)

Likewise, many RINOs in the House and Senate helped enact Joe Biden's \$1.7 Trillion **"Infrastructure Bill"** in **2021**. Most Republican supporters could not possibly have read the bill, nor did they have any idea what it contained. It was really just a pared-down version of Bernie Sanders' **"Green New Deal"** legislation, and squandered hundreds of billions of dollars by futilely throwing them at **"Green"** energy companies that will return the favor with campaign contributions to the *"Democrat"* Party in the years ahead. McConnell and several other Republican Senators obediently followed their marching orders from the *Donor Class* and threw a lifeline to the *"Democrat"* Party by supporting this ridiculous and wasteful Bill.

The GOP will NEVER become the majority party with RINOs such as Mitch McConnell in its "leadership." McConnell and his entourage of RINOs will routinely betray their colleagues, their party, their constituents and the American People with their self-dealing and the bribe money they receive from wealthy donors. Their legislative agenda consists primarily of the interests of the Donor Class, which owns their souls as surely as China owns Joe Biden.
