

Screwed Again !

When RINOs and other Republican cowards turned a blind eye to massive and orchestrated "*Democrat*" voter fraud in 2020, it guaranteed that this malignancy would be repeated in future elections. Naturally, it occurred again in the 2022 midterms, except that this time its practitioners could be confident that they'd **NEVER** be held accountable by a corrupt and treasonous "*Democrat*" Attorney General.

Following the stolen 2020 election, Mitch McConnell -- America's best argument for *Term Limits* -- advised Trump's RINO Attorney General, Bill Barr, not to investigate the massive and systemic "*Democrat*" voter fraud that just took place. McConnell was merely looking out for his masters in the so-called "*Republican*" *Donor Class*, whose highest priority wasn't reelecting Donald Trump, it was destroying him and returning control of the GOP to its self-dealing membership.

It's undeniable that voter fraud took place in the November 8 midterms, just as it did in 2020, and it's no coincidence that it occurred in many of the same states and by many of the same people as in 2020. The voting irregularities that occurred in **Pennsylvania, Arizona** and maybe **Nevada** are proof that "*Democrat*" voter fraud is alive and well in many states, and rapidly becoming a permanent feature of our electoral landscape.

There's no way in the world that a parasitic bumbler like John Fetterman could be legitimately elected to the U.S. Senate, since he's never had a job and is incapable of uttering a coherent sentence. Pennsylvania will probably report its final election returns sometime in 2023, after its vote counters massage the numbers enough to ensure the election of Fetterman and a second, consecutive Jewish governor. This will ensure

that voter fraud and "*Democrat*" state officeholders are a permanent feature of the *Keystone State*.

Likewise, Arizona was treated to the spectacle of its *Secretary of State* proving both her incompetence and her lack of principle to the entire world -- with a badly bungled election in Maricopa County -- from which she should have recused herself. Ironically, at the same time, she was asking Arizona's electorate to vote her to the even higher office of governor. There's simply **NO WAY** this imbecile legitimately defeated a candidate as attractive, charismatic, intelligent and feisty as Kari Lake.

The Republican Party will NEVER become the majority party so long as the GOP is led by quislings, cowards, fools and other RINOs. They must be purged from the party and a serious house-cleaning must occur at the RNC. Otherwise, "*Democrats*" will have been right about one thing: the future of American democracy WILL come to an end, although not for the reasons they allege.
